TERMS OF SALE

1. This is a public and mail bid auction sale. All lots will be sold to the highest bidder. Mail bids will be treated as limits and lots will be purchased below the maximums where competition permits. Lots will be sold on the date indicated.
2. Unless exempt by law, the buyer will be required to pay, on the total purchase price, the combined New York State and local sales tax or any applicable compensating use tax of any other state.
3. All floor sales are final. No lots may be returned for any reason by floor buyers. Any claims for adjustment by mail bidders must be made within three days after receipt of books. No lot may be returned without our written permission. By submitting your bids you agree to the Terms of Sale herewith set forth.
4. Bidders unknown to us must supply acceptable credit references or a 25% deposit to assure entry of their bids. The prices indicated after each lot are estimates of value only and are intended solely as a guide. The prices realized may be higher or lower than these valuations.
5. A ten percent buyer's premium will be added to the cost of all lots. There is no additional charge or commission for executing your bids. We reserve the right to withdraw any lot prior to sale.
6. All postage, insurance and shipping charges will be added to your invoice. There will be a \$3.00 charge per lot for packing and processing. A late payment fee of 2% per month will be charged on all accounts remaining unpaid thirty days after the date of the sale.
7. Terms of this sale are strictly cash in United States funds only. Foreign payments must be made in U. S. dollars and all checks must be drawn on United States banks. Bids from minors cannot be accepted without written and signed parental permission.
8. Lots to be mailed to addresses not in the United States or its Territories will be sent only at the risk of the purchaser. When possible, insurance or registration will be obtained; it must be noted, however, that adequate insurance or registration is often not available by surface or air mail.
9. Title to all lots remains with the cataloguer until paid for in full. Payment must be made immediately upon notification or, at our option, upon receipt of material. The discretionary right to withhold delivery of lots until full payment has been received is reserved.
10. All books are as described. We acknowledge the possibility of errors or typographical mistakes, and any errors on our part will be cheerfully corrected. We cannot be responsible for your errors; please check your bid sheet carefully.

NOTE IN NUMISMATA TUM EPHESIA, TUM ALIARUM URBUM APIBUS INSIGNITA.** Romae: Typis Varesij, 1658. 18 pages, including 1 fine engraving of an ancient coin; 2 engraved plates of ancient coins (numbered 19 & 20); 21-28, 4 pages, woodcut initials. The last plate in the first title is signed "apud Io. Petrum Bellorium." Both works were dedicated to Francesco Barberini. Since the bee was incorporated in the arms of the Barberinis, the gilt decorations, if they do indeed depict bees entering a hive, suggest a family provenance.

26 Bellori, Giovan Pietro. **VETERES ARCUS AUGUSTORUM TRIUMPHIS INSIGNES, EX RELIQUIIS QUÆ ROMÆ ADHUC SUPERSUNT, CUM IMAGINIBUS TRIUMPHALIBUS RESTITUTI, ANTIQVIS NUMMIS NOTISQUE JO: PETRI BELORII ILLUSTRATI. Large folio: 50 x 35 cm. Early reddish-brown full calf over thick boards, black leather spine label, gilt, spine ends a trifle chipped, binding a bit worn but sound, text in plate 21 (no loss), plate 50 loose, plate 51 loose and a good deal shorter (35 cm) but with adequate margins, also some minor creases and one tear (no loss), minor staining at the top outer margins, starting at 3 x 3 inches or so diagonally and diminishing to insignificance. An easily restorable copy of this magnificent work. (1,000.00)

Lipsius pages 35-36. Brunet 29473: "Ouvrage recommandable à cause des belles pl. qu'il contient." A superb production, apparently of great rarity. Two double-page plates are devoted entirely to ancient Roman coins, and coin illustrations are incorporated into several other plates. The plates, while differing in format, are identical in style to the illustrations found in Bellori's *Columna Antoniniana* and *Colonna Traiana*, as depicted on page 91 of Francis Haskell's 1993 *History and its Images: Art and the Interpretation of the Past*.

Ex libris Edward Theodore Newell in each volume. Clain-Stefanelli 1806* 2305*, 2368* 2417*, 2418 & 2678. Clain-Stefanelli. *Numismatics—An Ancient Science*. pages 43 & 44. "Imhoof-Blumer's name trails like a comet across the field of Greek numismatics. Inspired by Theodor Mommsen's idea of creating an extensive work on Greek coins as a companion to the 'Corpus of Latin Inscriptions', the Prussian Academy of Sciences in Berlin assigned to Imhoof-Blumer the direction of *Die Antiken Münzen Nord-Griechenlands*. Such a corpus was intended to supersede all publications on the subject by describing every known coin of each city or province within a chronological sequence, with full attention given to all available source material. This dream of a corpus of all ancient Greek coins seems to have haunted numismatists since the early 16th century when Wolfgang Lazius first proposed such a work. But it proved too ambitious even in the late 1800's, and despite competent scholars, this gigantic German work progressed very slowly until it finally came to a halt in the late 1930's." Complete sets of this work, still indispensable for the series covered, are rarely offered. The set at hand features a number of annotations by Newell, both in ink and in pencil. Item numbers circled in ink apparently denote coins in Newell's personal collection. Laid in the 1935 volume is a typewritten, signed letter to Newell from H. Gaebler dated 25 December 1935, and, also, a pencil note in Newell's hand, critical of Gaebler's condemnation of several coins on stylistic grounds.

65 [Jewish Numismatics]. **THREE HOLOGRAPH LETTERS:**

1) Madden, F. W. **ORIGINAL LETTER ON THE COLLEGE, BRIGHTON STATIONERY**, 8th Dec. 1881. Single sheet: 17.5 x 11.5 cm, written on both sides, two light fold-marks, glue residue at left margin on back. Fine.

In reply to an unidentified correspondent, Madden writes in part: "I beg to state that the price of my new book is £2.2.0, and that it is virtually a second edition considerably enlarged of my 'Jewish Coinage' of 1864. It is a large 4to of 330 pages & contains everything connected with the subject up to date...I shall be happy to receive your name as a subscriber." A postscript notes: "You have confounded me with my father the late Sir Frederic Madden."

2) Lincoln, W. S. & Son. **ORIGINAL LETTER ON ORNATE NUMISMATIC LETTERHEAD TO THE REV. W. H. SEWELL**, London, Feb. 11th 1892. Single sheet: 20 x 25 cm, folded in half, written on two sides, two light fold-marks, several words underlined in purple ink. Very fine.

The firm offers only £2.5 for a George IV £2 piece ("It is not in, what we consider, fine preservation") against the purchase of a shekel. The letter continues: "We do not understand your reference to p. 188 of Madden's Jewish Coins - either in the edition of 1864 or the larger work of 1881, we find no allusion to shekels...Perhaps you quoted the wrong page? At any rate the shekels we have are those described on pages 43 & 44 of 1864 edition and on pages 67 & 68 of 1881 edition - they are the only shekels that can be had - what others may be alluded to in the same works are so rare as to be quite unobtainable - or only at enormous prices. Shall we send you one or two of the shekels we reported, for you to select from?"

3) Stehelin, Rev. J. P. **PART OF AN ORIGINAL LETTER**, Single sheet: 18 x 11.5 cm. Very fine.
Headed "Bar Cochab," the letter expounds on the impostor "Bar Cochab" (*sic*) being proclaimed the Messiah by the Rabbi Akiva and getting his just deserts at Bithera.

All written in black ink, signed, condition as noted.

The author was the son of William Bradbury, of the firm of Bradbury & Evans, who were the proprietors of *Punch*, founder of the *Daily News* and other major periodicals, and publishers for Dickens and Thackeray. Born in 1831, he entered the Imperial Printing Office of Vienna as a pupil in 1850. He wrote several works of considerable merit in the 1850's, including those cited in the text, culminating his remarkable if relatively brief *oeuvre* with the superb work offered here. Tragically, as noted in the *Dictionary of National Biography*, "He died by his own hand 2 Sept. 1860, aged 29." The genius of the man lives on in this remarkable and extremely rare volume of *Specimens of Bank Note Engravings*, comprising in his words, a series of "Exemplars...respectfully submitted to the attention of Merchants and Bankers of all Countries, as the result of the combination of artistic design and improved machinery used 'exclusively' in the Engraving of Bank Notes" by Henry Bradbury, Bank Note Manufacturer."

Engraved titles present throughout (dated 1797 & 1796), finely engraved frontispiece of "History protecting Medals from the Ravages of Time," preface leaf, James Wright's 4 page *Observations on Coins*, 15, (1) page index, 7, (1) page index of *Abbreviations*, 240 engraved plates, each illustrating both sides of four tokens. A complete set from the library of Robert Wallace McLachlan with his ink autograph on the front flyleaves of the first two volumes. Issued serially over several years, complete sets of this, the only comprehensive early work depicting eighteenth century English tokens, are today decidedly rare. The preface proposed to issue "fac-similes of four hundred and eighty different Coins, in four Volumes twelves, with an elegant frontispiece, at the price of twenty shillings." After the four volumes had appeared such a wealth of tokens remained unillustrated that it was decided to extend the series to eight volumes. Initiated by Denton, the last two parts were published by Prattent. The work appeared at ten to fourteen day intervals in printed wrappers, price sixteen: twelve tokens of three plates comprising a number. Given the method of distribution, the change in publisher (many sets are comprised of only the first 180 plates), and the proclivity of early collectors to cut up plates to illustrate other books (the famous Conder work, for example) it is not surprising that few complete sets have survived, especially in sound contemporary bindings. The set at hand is considerably enhanced by the extensive and detailed annotations, clearly made by a knowledgeable collector. Included are numerous notes on rarity, value, variations not depicted, issuers and manufacturers, method of manufacture, including whether made in a collar, for collectors or for circulation, mules, patterns, counterfeits, etc.
- 177** Dick, Rev. Robert. *SCOTTISH COMMUNION TOKENS OTHER THAN THOSE OF THE ESTABLISHED CHURCH*. An absolutely superb production, composed by special authorization of the "Bourgmestre et Echevins de la Ville d'Anvers, avec les caracteres Plantiniens conservés au Musée Plantin-Moretus." No. 936 of 1,050 copies, issued to Monsieur l'avocat Paul Crockaert. The work is printed on "parchemin français de Ville-sur-Saulx" and was issued on the hundredth anniversary of the Banque d'Anvers. All were issued "hors commerce" and very few copies appear to have found their way into numismatic circles. Most were apparently issued in card covers, with only a small number of copies bound as here. In numismatic terms, the many illustrations derived from *Ordonnances* dating from 1499 and printed on antique paper are especially interesting and important.

The plates are annotated in red ink and the city of issue of each coin depicted is neatly written in the blank margins. Also featured in the text are footnotes, also neatly written in red ink and in Italian, comprising observations derived from Zanetti.

Grand Duke Georgii Mikhailovich's Peter the Great Volume II & Volume III Plates

189 Georgii Mikhailovich, *Grand Duke* Георгий Михайлович, *Вел. Кн. МОДЕЛЬ ЦАРСТВОВАНИЯ ИМПЕРАТОРА ПЕТРА I. ТОМЪ II/MONET
TSARSTVOVANIYA IMPERATORA PETRA I. TOME II*. St. Petersburg, 1914. Half-title, printed title in red and black, magnificently
engraved portrait of Petrus Alexewitz, fine frontispiece title, dedication leaf, ii, (2), 153, (1) pages, 55 very fine *Фотогальтунг*
or *Photoxyalotypie* plates, depicting coins from 1682 to 1710. Folio: 41 x 31 cm. Lacking printed wrappers, half-title and title
worn, soiled and stained, top half of portrait stained, back of final plate soiled, remainder of contents generally fine. (also)
(Georgii Mikhailovich, *Grand Duke* Георгий Михайлович, *Вел. Кн. PL. LVI-XCV & (XCVI-III)/ТАБ. LVI-XCV & A-3*. No place or
date. 48 very fine *Photoxyalotypie* plates of coins in all. Some plate captions in French, some in Russian. Plates LVI-LXV and
subsequent plates in Russian are approximately 42 x 32 cm; plates in French and the final series of eight plates are
approximately 35.5 x 27.5 cm. All are loose. The last eight plates are neatly lettered, dated and numbered in pencil. A few
plates are a trifle chipped at corners. Generally fine. (10,000.00)

Ink stamp of Библиотека ООИБ Академии Наук СССР on the back of the title and plates in the main volume. No. 39 of only 200 copies, covering the 1682-1710
coinage. Also present here is the virtually unknown series of plates covering the 1711-1719 coinage. In an article in the *Russian Numismatic Journal*, V. Arceff
presented an excellent overview of these final sections of the Grand Duke's magnum opus: "For the Corpus installment on Peter I's coinage, four volumes were
planned. The first would be in Demetrii's province - the rich documentation which he had then assembled (the bulk of these papers reside now at the Hermitage).
Volume II covered the coinage from 1682 to 1710; it was published in 1914. Though the printing run of 200 was the same as for the preceding issues, very few
were actually distributed and it is extremely rare. Volume III was to have covered 1711-1719. Some 50 plates, not all fully finished, exist, and the Hermitage
holds some manuscript pages of draft text. Volume IV would have concluded with 1720-1725. It remained evidently wholly in the planning phase." To our
knowledge, the Volume III plates offered here are the first ever to come to public sale. In the 1987 Kolbe/Spink sale, a copy of Volume II alone brought \$8,000.
Undersold at a strong price, it certainly accentuates the rarity and importance of this volume and, with the inclusion of the Volume III plates present here, perhaps
underscores the significance of the current offering.

(500.00)
Though almost entirely based on the 1760 numismatic bibliography compiled by J. C. Hirsch and not by any means complete, Lipsius has long stood as the best numismatic bibliography of early printed numismatic books. Only it covers the last four decades of the eighteenth century and, combined with Leitzmann (*vide* lot 216) it remains the only comprehensive work on the topic from its birth at the beginning of the sixteenth century to 1866. The work is surprisingly rare, much more so than Leitzmann, and, were it not for the 1977 John Drury reprint, it would be virtually unobtainable today.

In the *Introduction* to each volume the author notes that "The object of this work is to describe and give the history of all medals which have been produced at different times to commemorate naval events and the deeds of seamen in war and peace. To this end all public and the principal private collections have been searched, and casts obtained of the rarer pieces to complement the medals in my own collection." Publication of the final volume was delayed by the author's death on September 11, 1921. Milford Haven's son wrote that "At that date the manuscript was complete, but the printing and editing had not been completed, so that for a time the work remained in abeyance... With my mother's concurrence, therefore, my wife and I decided that the best form of tribute we could pay to my father's memory would be to publish this final volume, thus completing the work that had been interrupted by the author's death... To my father this work meant much more than the mere cataloguing of his collection of medals, and in truth he has produced a medallic history of all Navies; a perpetual memorial to the great traditions of the sea." The final volume features over 150 pages of indispensable information, with numerous fine illustrations, on medals of the United States of America. Featured are chapters on Christopher Columbus medals, a chronological list of American medals, commemorative medals, life-saving medals, a general index, and an index of inscriptions. It has been estimated that only 25 to 100 sets of this monumental work were produced for sale.

In 1838 he wrote Hidebrandt, 'it is a horrible thing to be glad at the news of a man's death, but one cannot avoid feeling a sort of exhilaration when one gets to hear of the death of a great collector. They write me from London that (Matthew) Young is dead. He had one of the best collections and it is going to be sold at auction. A good opportunity for me to make acquisitions.'" (450.00)

Ex-libris Doct. Pierre Bastien. Grierson page 21. Clain-Stefanelli 893. Engel et Serrure 65-67: "Cette revue, créée par E. Cartier et L. de la Sausseye, est la première publication périodique sérieuse qui ait été consacrée à l'étude des monnaies anciennes au profit des sciences historiques." In *Numismatics—An Ancient Science*, Clain-Stefanelli writes: "Usually 1836 is considered a significant date in the development of numismatic science. In that year two periodicals were started which for over a century attracted the most distinguished numismatists of the time and set the highest standards in research. In Paris *Revue numismatique* was founded... (and) in London appeared the... *Numismatic Chronicle*." These two journals, along with *Revue belge de numismatique* which began publication a few years later, remain indispensable storehouses of information on ancient coins, medieval and modern numismatics, especially relating to their respective countries of publication. Of the three, and those published before or since, *Revue numismatique* may well be the most important scholarly numismatic periodical of all time. Long runs now appear on the market infrequently and complete sets are extremely rare. Of inestimable importance.

[Klausenpohl] Verkleiding and Otto Kozmowski. Clain-Stefanelli 18789: "Important for modern coining." [Clain-Stefanelli's assessment is an understatement. Schlosser was Warden at the Hanover Mint and his detailed treatise, written from an insider's perspective, is one of the best comprehensive technical works ever written on the modern coining process. Designed at the time for coin makers, medal manufacturers, goldsmiths, silversmiths, engravers and working chemists, today it is an indispensable source of valuable information for anyone interested in nineteenth century coining technology. Unfortunately, the work very rare and almost entirely little known.]

NORTH AMERICAN NUMISMATICS

The Keystone of American Numismatic Literature

296 AMERICAN JOURNAL OF NUMISMATICS. *VOLUMES I-LIII*. New York & Boston: American Numismatic and Archaeological Society, Boston Numismatic Society and the American Numismatic Society, 1866-1924. Fifty-three volumes complete. Volumes I-XX are uniformly bound in five volumes: contemporary green half calf, crimson morocco spine labels, gilt, marbled endsheets and page edges, bindings worn, covers mostly detached (one cover missing), top blank margins just a trifle stained in second bound volume. Volumes XXI-LIII are nearly all in the original printed paper or card covers, many covers are a bit worn and/or detached. The photographic plates in the early volumes are in particularly fine state, especially the plate of 1793 cents (the variety with Levick's name handwritten). In need of binding else a fine set. (5,000.00)

The Robert Wallace McLachlan/Chateau de Ramezay set, with McLachlan's name stamped in gilt at the base of the spines on the bound volumes and his binding instructions written in pencil on the first page of the first issue. Clain-Stefanelli 350. Grierson page 16. Sigler 74. Many of America's greatest contributions to numismatic scholarship first appeared in the pages of this most important publication. Crosby's classic works on large cents, parts of his *Early Coins of America*, Frey's *Dictionary of Numismatic Names*, Edgar Adams' extensive work on California pioneer gold coins and, later on, the scholarly, still indispensable studies on ancient Greek coins by Newell, Baldwin Brett and others are but a small sampling. For American researchers, however, the Journal is most interesting for the reminiscences and other fascinating tidbits of information to be found in the earlier volumes, much of which is little known today except among the select few fortunate enough to possess a set of this very scarce storehouse of knowledge. In volume 41, its monumental importance is well stated: "The history of the Journal, if it could be given in detail, would be a history of American numismatics."

297 American Numismatic Association. *YEAR BOOK. VOLUME ONE*. Davenport, 1910. (86) pages, 5 halftone plates, loosely laid in is a 23.5 x 15 cm halftone portrait of Alfred Sandham. Original printed blue card covers with overlapping edges just a trifle worn, deckle outer page edges. Fine. (250.00)

A rare and most interesting publication featuring the portraits of American Numismatic Association past presidents and then-current board members. Among those depicted are W. G. Jerrens, J. A. G. Heaton, B. P. Wright, Farran Zerbe, W. F. Dunham, H. O. Granberg and numerous others. Important articles present include a history of the organization by Howland Wood, the 1910 *Convention Proceedings* and an overview of the coin exhibits, Ben Green's *The Social Side of the Convention*, a poem by A. G. Heaton entitled *George Francis Heath—A Tribute*, R. W. McLachlan's *The First Paper Money*, Howland Wood's *A scheme for a Uniform Standard of Classifying the Condition of Coins*, etc. An important source of historical information, much of which never found its way into *The Numismatist*.

298 Andrews & Son, *Auctioneers*. [EVES]. THE EVES COLLECTION. DESCRIPTIVE CATALOGUE OF A VALUABLE PRIVATE COLLECTION COMPRISING OVER 3700 SPECIMENS OF VALUABLE COINS, TOKENS, MEDALS, ANTIQUITIES AND CURIOSITIES, INTERESTING AND CURIOUS OLD BOOKS, &C., THE PROPERTY OF MR. Ex Numismatic & Antiquarian Society of Montreal with their large printed yellow label affixed to the front cover, inscribed: "Presented by Alf. Sandham." Baker 17. The first Toronto coin sale and one of the earliest Canadian coin auctions. Rare. According to Warren Baker, Eves may have been the first coin dealer in Toronto. The collection featured British, Latin American and European coins and a goodly number of American coins, including large cents: "A perfect collection of every date from 1793 to 1857." An uncirculated 1793 wreath cent was featured, along with a "1815 Very good. This cent is the scarcest of all the American cents, and is only to be found in very few collections, extraordinarily rare and in fine condition, and a cent to be greatly desired." Also included was a "Sommer Island shilling" with a long description, concluding with "The above coin may not be genuine."

299 Anthon, Charles E.; Feuadent, Gaston L. & Cogan, George W. THE ANTHON CABINET. CATALOGUE OF PROFESSOR ANTHON'S NUMISMATIC CABINET. *PART 1: COMPRISING COINS AND MEDALS OF THE BRITISH EMPIRE. PART 2: FRANCE, BELGIUM, SWITZERLAND, SPAIN, PORTUGAL AND ITALY. PART 3: RUSSIA, POLAND, MODERN GREECE, GERMANY, DENMARK, SWEDEN, AND HOLLAND. PART 4: ANTIQUE COINS. PART 5: GOLD, SILVER AND COPPER, OF AMERICA*. New York, 1879-1884. Five parts complete, bound in one volume. Handsomely bound in contemporary brown three-quarter morocco and marbled paper sides/endsheets, sides ruled in gilt, spine decorated and lettered in gilt, top page edges gilt, extremities a little worn. Very fine. (150.00)

Ex Chateau de Ramezay. Adams page 148: "Professor Charles Anthon, one of the giants of the early years of our hobby, had intended to issue each section of his cabinet with a printed price list and then to issue a bound edition of all five sections. Unfortunately, the old gentleman died after the first three sales in the series; these three are available with the price list bound in but his intentions with respect to the final two sections and the five sections as a whole were not carried out." The special prices realized lists for the first three parts are bound in the volume offered here and the last two sales are priced in pencil.

300 Arnton, John J., *Auctioneer*. [BOUCHER]. CATALOGUE OF ANCIENT, MIDDLE-AGE AND MODERN COINS AND MEDALS, IN GOLD, SILVER, BRONZE AND COPPER, CONTINENTAL PAPER MONEY, FRENCH ASSIGNATS, BANK NOTES, CARD MONEY, ETC., BEAUTIFULLY ILLUSTRATED NUMISMATIC BOOKS, HANDSOME VELVET LINED BLACK WALNUT AND GLASS COIN CASES, THE PROPERTY OF ADELARD BOUCHER, F.N.S., (FIRST PRESIDENT OF THE NUMISMATIC SOCIETY OF MONTREAL). Montreal, February 22-23, 1866. (2), 22 pages, 726 lots. Self-covered as issued, once lightly folded, the first and last page a bit dusty else fine. (1500.00)

Ex Chateau de Ramezay. Baker 13: "This was the first of four collections put together by Boucher. For his collection of Canadian coins he was awarded a diploma and first prize at the Provincial Exhibition of 1863. This collection (lots 49-62) was offered in its entirety in this sale. By today's standards it was ordinary, the highlights being a sideview penny, a lead striking of Br 689, a Vexator, 4 Bout de L'isle tokens and a Leslie twopenny. In all there were 86 coins in the Canadian collection." Only the second Canadian coin auction sale. Rare.

301 Appleton, William S. **DESCRIPTION OF A SELECTION OF COINS AND MEDALS RELATING TO AMERICA, EXHIBITED TO THE MASSACHUSETTS HISTORICAL SOCIETY, APRIL 28, 1870.** Cambridge: Reprinted from the Proceedings, Press of John Wilson and Son, 1870. 2 blank leaves, 16 pages, 2 blank leaves. Original printed gray wrappers, once lightly folded. (300.00)
 Inscribed in ink at the head of the front wrapper: "From William S. Appleton To Matthew A. Stickney, Feb. 28, 1873: A well-written catalogue of an important early exhibition of colonial and continental coins and medals, including "the only complete set known to exist of the earliest coinage of New England." Rare

302 [Barber, Charles E.]. **THE UNITED STATES CIVIL SERVICE COMMISSION...HEREBY DESIGNATES CHARLES E. BARBER TO BE A MEMBER AND CHAIRMAN OF THE BOARD OF CIVIL SERVICES EXAMINERS FOR THE U. S. MINT SERVICE, PHILADELPHIA, PA.** Washington, D.C., April 26, 1898. By order of the Commission: (*signed in ink*) John R. Procter, President. Single decoratively printed sheet featuring the Commission's logo, completed in ink. 39.5 x 29 cm. Six light vertical fold-marks. Near fine. Original slip from the Commission pinned to upper left corner, stating: "Please show this certificate to the nominating or appointing officer, and to the other members of the board, for their information." (100.00)
 Barber served as Chief Engraver of the United States Mint from 1879 to 1917. He designed the 1904 Kolbe/Spink Sale, vide lot 595. A major work of considerable silver coins appearing in 1892 and also engraved the dies for numerous other coins.

303 [Barber, Charles E.]. **ORIGINAL HOLOGRAPH LETTER FROM THE CONSULATE GENERAL OF HAITI TO CHARLES E. BARBER, MINT OF THE UNITED STATES, PHILADELPHIA, PENNA.** New York: Consulat Général d'Haïti, 31-33 Broadway, October 25, 1904. Single sheet, folded in half. Folded size: 27 x 21.5 cm. Printed letterhead, written in black ink, signed by the Consulate General. Folded to fit in the accompanying hand-addressed mailing envelope, postmarked Oct. 26, 1904, cancelled 2c Washington stamp still affixed. Fine. (100.00)
 A significant letter, reading: "I take pleasure in acknowledging the receipt of your letter of yesterday and of the accompanying five cent coin made from the dies just completed. I think the work well done. I am quite satisfied with it and I thank you for hurrying it forward to so prompt a completion. I must also thank you for sending the dies to the Scovill Company, for they will now be able to begin the coinage without further delay."

304 Beauchamp, William M. **METALLIC ORNAMENTS OF THE AMERICAN INDIANS.** Albany: University of the State of New York, 1903. 120, (6) pages (covers included in pagination). 37 plates, depicting a number of medals including the Red Jacket medal. Original printed tan card covers a trifle worn and discolored. (150.00)
 The author cites Betts and Leroux and carried on an extensive correspondence with Robert W. McLachlan. In a substantial chapter entitled "Honorary medals and gorgets," Beauchamp, while expressing high regard for McLachlan, enumerates differences with him on several key points expressed in the latter's 1883 article (entitled "The Montreal Indian Medal." McLachlan was quite favorably impressed with the Beauchamp work at hand, terming it a "most learned and exhaustive monograph." This, however, did not prevent him from strongly countering Beauchamp's arguments in a 1905 *American Journal of Numismatics* article with the same title as his 1883 work (an early manuscript of this article was sold in the 1994 Kolbe/Spink Sale, vide lot 595). A major work of considerable numismatic interest, "Metallic Ornaments" is quite scarce and is rarely offered in numismatic circles.

- 309** Bowman, Fred. **THE CANADIAN BOUQUET SOU TOKENS**. Cover title. Chicago: *The Numismatist*, July-November, 1955. Pages 705-1296, illustrated. Blue cloth, upper cover and spine lettered in gilt. *Very fine*. (100.00)
 Clain-Stefanelli 8515. A specially-bound volume commissioned by the author and presented to the Chateau de Ramezay, inscribed on the front flyleaf: "Presented with the compliments of (signed) Fred Bowman." The work was serialized in the five issues of *The Numismatist* bound in this volume. At the time of publication, the author was the honorary curator of numismatics at the Chateau. One of presumably a very few copies bound in this manner.
- 310** THE CANADIAN ANTIQUARIAN AND NUMISMATIC JOURNAL. Montreal: Numismatic and Antiquarian Society of Montreal, 1872-1933. *First Series 1872-1886*: thirteen volumes complete, except for Vol. 13, Nos. 3 & 4. *Second Series 1889-1894*: three volumes complete. *Third Series 1897-1916*: thirteen volumes complete, except for Vol. 1, No. 2. *Fourth Series 1930-1933*: four volumes complete. A complete set, excepting only the three single issues noted. The first ten volumes of the first series are nicely bound in five matching volumes: modern processed red full leather, spines and upper covers gilt, separate title/index present for each volume, most of the original printed wrappers bound in, the remainder of the set as issued, in the original printed wrappers or card covers, some spines a little worn. Also included is a typescript topical index on 9 large sheets. *Very fine set*. (1,750.00)
 From the library of Saul Hendler with his initials in gilt on the spines of the five bound volumes and his ink stamp on the inside front covers. Clain-Stefanelli 447. Complete sets are particularly rare, perhaps due in part to its checkered publishing sequence though it would appear that some issues were originally printed in very small quantities. The set offered here was put together over a period of time by Mr. Hendler and the overall condition is outstanding. According to a handwritten note, the five bound volumes were purchased by a prior owner in Frossard's October 12, 1887 sale for \$13.25. The Canadian equivalent of the *American Journal of Numismatics*, the *CANJ* is infrequently offered and is an indispensable of information to those seriously interested in Canadian numismatics and history, early North American medals, etc.
- 311** The Canadian Numismatic Association. **THE C. N. A. "BULLETIN," OFFICIAL PUBLICATION OF THE CANADIAN NUMISMATIC ASSOCIATION, VOLS. I-VI**. Ottawa, 1950-1955. Fifty issues complete, bound in six volumes. Also present are the original 1950 *Constitution* and R. C. Willey's *An Index, by Subjects, of the C. N. A. "Bulletin."* Quarto. Uniformly brown in rich brown cloth, upper covers lettered in gilt. *Very fine*. (250.00)
 A very nice set of this extremely scarce publication, the forerunner of the *Canadian Numismatic Journal*.
- 312** Chapman, S. H. & H. [CHAPMAN]. **CATALOGUE OF A VERY FINE COLLECTION OF ANCIENT GREEK AND ROMAN, GOLD, SILVER AND BRONZE, FOREIGN AND UNITED STATES COINS AND MEDALS, THE PROPERTY OF AND CATALOGUED BY S. H. & H. CHAPMAN**. New York, October 9, 1879. (2), 33, (1) pages, 604 lots, 4 fine prototype plates with the original tissue guards. Original printed light blue paper covers. *Fine*. (250.00)
 The first Chapman sale and an auspicious beginning. The fine plates were prepared by Gutekunst, a famous early American photographer, who was also responsible for the famous Maris New Jersey plate. The first plate depicts ancient coins, the second is of foreign and American coins and medals, and the last two depict choice large cents from the Chapman collection.
- 313** Chapman, S. H. & H. [MILLS]. **CATALOGUE OF THE MAGNIFICENT COLLECTION OF COINS OF THE UNITED STATES FORMED BY JOHN G. MILLS, ESQ., ALBANY, NEW YORK**. Philadelphia, April 27-29, 1904. (2), 109, (1) pages, 1848 lots, 14 fine photographic plates, prices realized list. Quarto. Well bound in contemporary dark blue half morocco, gilt rules on the sides, marbled sides and endsheets, raised spine bands, compartments decorated or lettered in gilt, top page edges gilt, extremities somewhat worn, internally a fine copy. (500.00)
 An extremely important sale of American colonial coins, choice large cents and half cents, along with important American silver and gold coins. The first Chapman sale issued with actual photographic prints. Prior illustrated sale catalogues were issued with plates produced by photographic printing processes such as phototype, artotype and autotype. Plated catalogues of this landmark sale were originally issued only in paper covers and today are extremely rare and virtually unobtainable in original state. In bibliophilic and aesthetic terms, a copy bound at the time, as here, is the most desirable alternative.
- 314** Chapman, Henry. [STICKNEY]. **CATALOGUE OF THE CELEBRATED COLLECTION OF UNITED STATES AND FOREIGN COINS OF THE LATE MATTHEW ADAMS STICKNEY, ESQ., SALEM, MASSACHUSETTS, COMPRISING ONE OF THE GREATEST COLLECTIONS EVER SOLD IN THIS COUNTRY, UNIQUE COLONIAL AND STATE COINS, BRASHER'S 1787 NEW YORK DOUBLOON, 1815 HALF EAGLE, AND AN ORIGINAL 1804 DOLLAR**. Philadelphia, June 25-29, 1907. ix, (1), 222, (10) pages, 3026 lots, engraved frontispiece portrait of Stickney, 20 fine photographic plates, prices realized list. Quarto. Original white cloth and paper boards, front cover titled in gilt, spine lettered in gilt, a small portion of the blank edge of plate 11 (approximately 1/2 x 2 inches) chipped off, a few very minor marginal defects in text margins, binding a bit worn and soiled but sound. The plate images are "speckle-free" and of exceptional quality. (600.00)
 Clain-Stefanelli 12078. This catalogue was Henry Chapman's first major solo production after the breakup of the partnership with brother Samuel Hudson the preceding year. While still graced by the magnificent photographic plates executed by his sibling, Henry catalogued the entire collection. He notes in the preface: "To prepare this catalogue has been a labor of love, as I am greatly interested in our pursuit and expect to devote my life to it." True to his word, Henry Chapman conducted nearly fifty sales over the following quarter century, including famous collections such as Jenks, Earle, Zabriskie, Parsons, Bement and Jackman, among others. Many would argue, however, that he never sold a finer collection of American coins. Adams terms it a "Famous early collection, perhaps the best. Replete with history and great rarities in all metals." Truly it is magnificent, featuring colonials, pioneer gold, patterns Washingtonia and United States coins in all metals.
- 315** Chapman, Henry. [STICKNEY]. **CATALOGUE OF THE CELEBRATED COLLECTION OF UNITED STATES AND FOREIGN COINS OF THE LATE MATTHEW ADAMS STICKNEY...** Philadelphia, June 25-29, 1907. ix, (1), 222, (10) pages, 3026 lots, engraved frontispiece portrait of Stickney, 20 fine photographic plates, prices realized list. Quarto. Well bound in contemporary brown half morocco, marbled sides and endsheets, raised spine bands, lettered in gilt, top page edges gilt, original gilt-printed white paper covers bound in, extremities somewhat worn, plates just a trifle "speckled" else internally a fine copy. (500.00)
 Widely considered to be the finest collection of American coins ever sold by the Chapmans.

316 Chapman, Henry. [BALDWIN]. CATALOGUE OF THE MAGNIFICENT COLLECTION OF EUROPEAN SILVER COINS, GOLD COINS, MEDALS, ETC., THE PROPERTY OF C. A. BALDWIN, ESQ. COLORADO SPRINGS, COLORADO. Philadelphia, April 20–21, 1911. v, 147, (1), (6) pages, 1372 lots, 8 fine photographic plates, prices realized list. Quarto. Original white cloth and paper boards, front cover titled in gilt. Fine. (300.00)

Acquisition ink stamp of the Western Penna. Numismatic Society on the front pastedown below the following handwritten pencil inscription: "Donated by Dr. G. F. E. Wilham." Ex libris Ray Byrne. Claim: Stefaneli 7954. An outstanding collection of world crowns and multiple thalers, in exceptional condition. Chapman notes in the preface: "The Splendid array which this distinguished collector has brought together is described in the following pages. First, those of the Holy Roman Empire; second, Empires; then Kingdoms, and so on through the Archbishops, Bishops, Princely Houses, Cities, etc., the arrangement of the catalogue by Adolph Hess, of the great Remann Collection, being followed and to which reference is made under R., and the number therein where the coin may be found. For many years Mr. Baldwin has sought the finest examples he could find of the coins he was interested in, and even though he had a specimen it was discarded if a finer one was procurable, hence the coins here offered are of a grade above those usually seen, especially in this country and even rarely abroad... There are eight (8) plates of the rarest coins, instead of six (6) as advertised, no extra charge being made."

317 Chapman, Henry. [SIEDLECKI & WILSON]. CATALOGUE OF THE VALUABLE COLLECTION OF FOREIGN AND UNITED STATES GOLD COINS, PARTICULARLY RICH IN ANCIENT ROMAN GOLD COINS, POLISH GOLD COINS, INCLUDING A 100 DUCATS, 1621, SET OF THE SILVER DOLLARS OF THE UNITED STATES, 1794 TO 1804, 1804 ALONE EXCEPTED. 1851 OCTAGONAL \$50 PIECE. FINE DECORATIONS, INCLUDING THE ORDER OF THE CINCINNATI. MAGNIFICENT CENTS OF 1794, 1796, 1797, 1802, 1803, OF THE LATE REV. STANISLAUS SIEDLECKI, PLYMOUTH, PA., TO WHICH IS ADDED THE CANADIAN COLLECTIONS OF R. O. MONTAMBAULT, J. BONNER, E. M. TURNER. Philadelphia, April 22, 1911. iv, 61, (3), (6) pages, blank leaf, 819 lots, 3 fine photographic plates, prices realized list. (bound with) Chapman, S. H. CATALOG OF THE MAGNIFICENT COLLECTION OF THE GOLD, SILVER AND COPPER COINS OF THE UNITED STATES FORMED BY THE LATE DAVID S. WILSON, ESQ., PITTSBURGH. Philadelphia, Auctioneers, March 13–14, 1907. (2), 67, (1) pages, 1,254 lots, handpriced in red ink. prices realized list. Wilson sale bound in before Siedlecki sale. Quarto. Dark blue cloth, gilt. Fine. (650.00)

Probably from the library of Wayne Raymond and bound by him. Ex August 30, 1976 Swann Galleries sale, original lot card laid in. Adams notes that "most of the quarto plate editions were printed in runs of 100. Two exceptions are Siedlecki (1911) and Jenks (1921) of which only fifty and sixty were made respectively." The only problem is that for every plated Siedlecki appearing on the market a half dozen plated Jenks sales appear. Though rated B+ by Adams, the Siedlecki sale is one of the least important plated large format Chapman catalogues. Our guess is that demand was low and that only a dozen or so Siedlecki catalogues with plates were actually distributed. It is known that a number of loose sets of plates were found in the Chapman estate, without accompanying quarto text. The Siedlecki catalogue is the only Chapman sale issued without plates in octavo format and with plates in quarto format. Both the content and its dual format suggest that originally it was to be issued as a small size sale. Perhaps S. H. misunderstood Henry's instructions and prepared large format plates instead of octavo. Or perhaps it was a marketing innovation that did not meet with success. Every other plated Siedlecki sale we recall having seen or handled was bound in the familiar Chapman style, i.e. white cloth and boards. Perhaps the example offered here was an advance copy, sent unbound to Raymond or another numismatist of the day whose library he later acquired. In any case, it is an unusual example of this truly elusive catalogue.

318 Chapman, Henry. [JACKMAN]. CATALOGUE OF THE COLLECTION OF MAGNIFICENT SPECIMENS OF AMERICAN COLONIAL, STATE AND UNITED STATES COINS AND MEDALS IN GOLD, SILVER AND COPPER. NEW YORK BRASHER'S DOUBLOON 1787, PAPER MONEY AND NUMISMATIC BOOKS OF THE LATE A. W. JACKMAN, Poughkeepsie, N. Y. New York, June 28–29, 1918. (4), 76, (2), (8) pages, 1156 lots, 9 fine photographic plates, prices realized list laid in. Quarto. Original white cloth and boards, gilt. Fine. (850.00)

(Claim: Stefaneli 12000 & 12183. Diminutive embossed label of Rud. Köhler affixed to the upper left corner of the front pastedown. A collection abounding in rare colonial and silver and copper United States coins. Four of the plates depict the especially notable large cents, which are remarkable for their outstanding condition. Of the collector, Chapman notes: "Mr. Allison W. Jackman was a highly cultured gentleman who devoted his life to study, having never engaged in business and being a most devoted son with an equally appreciative mother, his collecting was a pleasure to them both. Born in 1849, he early began collecting coins, which is testified to by notes in his Numismatic diary where he mentions having bought this or that in the early '60s and his interest never ceased. Here, therefore, truly is a life work and how well he has mastered it is shown by the coins..." A purely American sale excepting lots 1142–1156 of ancient coins, mostly important Roman Imperial bronzes, separately issued as a single sheet addenda. Early copies of the catalogue were issued without this supplement but it was apparently tipped in all plated catalogues.

319 Chapman, Henry. [JENKS]. CATALOGUE OF THE JOHN STORY JENKS COLLECTION OF COINS. ANCIENT GREEK, ROMAN AND THE ENTIRE WORLD. EARLY AMERICAN COLONIAL AND STATE ISSUES AND UNITED STATES PATTERNS AND THE REGULAR SERIES. Philadelphia, December 7–17, 1921. xii, 653, (1) pages, 7302 lots. Quarto. Original white cloth, gilt. A clean, tight, very fine copy. (400.00)

The most famous of the Chapman sales and perhaps the most famous American coin auction ever held. As nice a copy of this landmark catalogue as one could hope to obtain.

320 Chapman, (Samuel) Hudson. THE UNITED STATES CENTS OF THE YEAR 1794. Philadelphia, 1926. Second Edition, First Printing. 29, (1) pages, blank leaf, 4 fine collotype plates, pencil annotations in the text. Quarto. Original blue cloth, spine and upper cover lettered in gilt, extremities just a trifle worn. Fine. (250.00)

Sigler 468. The number "126" is stamped in red ink at the lower left corner of the title verso. Very scarce. It is generally believed that only 200 copies were printed, although John Adams suggests that "judging from present availability," 300 copies may have been issued. Of this work, Dr. Sheldon wrote: "The Chapman monograph is illustrated by excellent plates, and it is perhaps the most generally adequate presentation of the subject. However, the older Hays numbers seem to have taken deep root in the affections of cent collectors, and it now appears likely that the name Hays will long be associated with this the most extensive one-date series of American coins." In an interesting article appearing in the Fall, 1994 issue of *The Asylum*, Denis Loring presented his findings regarding the little known fact that there are two printings of this edition. He designates the first printing, most easily identified by the gilt lettering on the spine, as 26A, and the second printing as 26B and goes on to enumerate a number of textual differences observed in the copies he examined. The copy at hand clearly appears to be the first printing and comes from the library of an advanced collector of the series, probably C. E. Moellering, whose collection may have been sold at auction by Lu Riggins in 1957. The annotations comprise Doughty, Hays and Maris numbers, notes on over seventy coins (listing condition and, probably, cost in code), including 49 different varieties held by the collector, notes derived from Doughty, price records, and interesting independent observations. Doughty numbers have also been added to the "Table of References," along with the delightful appellations originally ascribed to the various varieties by Dr. Maris. (See also lots 331 & 337)

The First Work on Civil War Tokens — Extremely Rare

321 Chase, Pliny E(arle). **CATALOGUE OF TOKENS, CIRCULATING DURING THE REBELLION OF 1861.** (Philadelphia: Reprinted from the *Proceedings of the American Philological Society*, Vol. IX, 1863). 19, (1) pages, 303 listings, 237 x 161 mm. Original pebbled red cloth, covers panelled in blind, upper cover lettered in gilt, handwritten spine label, contents somewhat loose. Fine. (500.00)

Engraved armorial ex libris S. Alofen. Sigler 477. American Numismatic Society *Dictionary Catalogue* page 619. Davis 234: "No sale recorded." Katen Sale 36 (Fuld Library Part I), lot 679: "An exceedingly rare book." We have never handled this work before and it may well be the only copy to come to market since the 1971 sale of the spectacular George J. Fuld Library. Given the Fuld's intense interest in the topic, it would have been almost inconceivable for them not to have had a copy. The work was based on the collection in the Cabinet of the American Philological Society, presented by Chase, and varieties described from other collections are identified by an asterisk. Collectors were encouraged "to assist in completing the collection of Token currency" by sending "specimens, duplicates, or descriptions of such varieties as are not mentioned in this catalogue, to the Curators, Mr. Fr. Peale, or to the Librarian of the Society." The work is divided into seven main categories: Business Cards; Portraits; Equestrian Statues, Fancy Heads, and Human Figures; Animals; Flags; Miscellaneous Devices; and Mottoes. The author, 1820-1886, was a noted scientist and prolific writer. Chase entered Harvard University at age 15, stating as his object the acquisition of "honorable fame." In 1864, he was awarded the Magellanic Medal by the American Philological Society for his paper on "Numerical relations between Gravity and Magnetism." He easily achieved his college goal and, though little known, his pioneering numismatic work makes him an especially notable figure in that discipline. Greatly eclipsed by subsequent works, Chase's landmark work remains of use in that it establishes with certainty that all tokens listed were made no later than September 1863.

322 Clifford, Henry H. - **20 - PLATES FOR "PIONEER GOLD COINAGE OF THE WEST 1848-1861."** (Pasadena, California, circa 1961). 8 1/2 x 11 inch title, written in pencil, accompanied by nineteen 8 x 10 inch photographs of coins with descriptive text (numbered 1-9 & 11-20). Loose. Very fine. (500.00)

Ex Henry H. Clifford estate. A set of extremely rare photographs depicting the coins described in Clifford's substantial work first published in the *Westerners Brand Book*, Book Nine, in 1961. Two hundred forty coin images are depicted and are far superior to the tinted halftones found in the published work. This set of the plates is unique, having been sent to John Ford for corrections and featuring numerous changes in red ink in his hand. An important photographic record of one of the finest collections of its type ever formed.

An Extremely Rare Photographic Record of the Remarkable Clifford Collection

323 [Clifford, Henry Hoblitzelle]. Rankow, Ralph. **A PHOTOGRAPHIC RECORD OF THE HENRY CLIFFORD COLLECTION OF PAPER CURRENCY, PIONEER GOLD COINS, PATTERNS, TOKENS, ETC.** (Pasadena, California, 1973). 63 original 8 x 10 inch photographs, numbered 1-111. Loose. As new. (1,500.00)

Ex Henry H. Clifford estate. One of only a few sets prepared. The first thirty-four plates depict Clifford's extensive collection of Mormon paper currency, scrip, and walrus money, along with San Francisco, Denver and Austin, Nevada notes, etc. The remaining 77 plates, numbered 35 to 111, mostly depict the obverse and reverse of two numbered groups per plate of California and various other territorial gold coins, patterns, and tokens. Over 800 images are depicted, including everything from fractional gold coins to fifty dollar slugs, from Indian Trader tokens to large gold ingots. These photographs are of excellent quality, having been taken by Ralph Rankow, numismatic photographer at the time for New Netherlands Coin Company, Stack's, Lester Merkin, etc. The gold coins were sold to the Kiggins a year after these photographs were taken and the remainder of the collection was sold in the 1982 Bowers and Ruddy sale. An extremely rare photographic record of this remarkable collection. Of inestimable importance.

324 [Clifford, Henry Hoblitzelle]. **PHOTOGRAPHS OF 1973-1975 ADDITIONS TO THE HENRY CLIFFORD COLLECTION, DEPICTING PIONEER PATTERNS, TOKENS, MEDALS, ETC.** (Pasadena, California, 1975). In it he notes similarities of "Jesus", "Moffat" and "Walls Fargo Express" silver bars being offered at the time. He concludes: "The similarity of these 3 bars appears to me to be more than a simple coincidence. I am referring the matter to the P.B.I." Also included are photographs of some of the items, correspondence, notes, etc.
- 5) A manila envelope mailed from John Ford to Henry Clifford on July 30, 1974, containing 47 Polaroid prints of pioneer gold coins, etc., a number termed unique.  Clain-Stefanelli 485. One of the great late nineteenth century American numismatic periodicals. While publications like Frossard's *Numisma* may be more fun to read, Scott's *Coin Collector's Journal* provides more solid numismatic information on a wide variety of topics than any other publication of the time, excepting only the *American Journal of Numismatics*.

328 Crosby, Sylvester (Sage). THE EARLY COINS OF AMERICA; AND THE LAWS GOVERNING THEIR ISSUE. COMPRISING ALSO DESCRIPTIONS OF THE WASHINGTON PIECES, THE ANGLO-AMERICAN TOKENS, MANY PIECES OF UNKNOWN ORIGIN, OF THE SEVENTEENTH AND EIGHTEENTH CENTURIES, AND THE FIRST PATTERNS OF THE UNITED STATES MINT.  Ex libris T. Harrison Garrett, later label of Carl W. A. Carlson. Grierson page 218. Sigler 603. Clain-Stefanelli 12115: "The classic work on the early coinage." Arguably the best, and certainly the most enduring, work on American numismatics ever written. The rare 1878 edition, estimated by Eric Newman to have comprised ten percent or less of the entire printing (i.e. thirty-five copies or less). The annotations include notes on the plates identifying the various coins depicted, as well as specific varieties here applicable. Marginal notes in the text identify topics and specific coins discussed. Also included are notes on quantities known of various varieties. An interesting copy of this landmark work, with a fine provenance.

329 Dean, Sidney, Editor-in-Chief. HISTORY OF BANKING AND BANKS, FROM THE BANK OF VENICE, FOUNDED A. Boston: Pelham Studios, 1884. *Part I*: xii, 204 pages, very fine frontispiece of the U. S. Treasury building, tables, fine plates of the Bank of England, the Paris Bourse, the Old United States Bank and the New York Sub-Treasury, 2 fine portrait plates. *Part II*: 100 fine plates, mostly portraits, many accompanied by facing biographical text. Folio: 35 x 29 cm. Original pictorial cream cloth, gilt, bevelled edges, all page edges gilt, spine ends chipped, binding a bit discolored, covers and spine detached, occasional intermittent light foxing, internally fine, binding restorable. (350.00)
 Clain-Stefanelli 1283. LIMITED EDITION. A sumptuous production, well written and finely illustrated. Among the topics covered are included early banking activities, the rise and fall of the Bank of the Republic of Venice; the gold florin; histories of the Banks of Florence, Barcelona, St. George, Amsterdam and Hamburg, a long exposition on English banking and the Bank of England; histories of the Banks of Scotland and France; etc. Nearly half of the work is devoted to American topics, including early Colonial currency; Massachusetts, Connecticut and Maryland Mints; various Colonial paper money issues; currency depreciation. Continental paper money and banking; early United States banking; State banking; Civil War banking and currency; the National Currency Act and the growth of the System, the Panic of 1873; etc. Clearly a major work and apparently quite rare. The very fine plates mainly depict the Presidents of prominent banks of the period.

330 THE DECORAH NUMISMATIC JOURNAL, VOL. I, NOS. 1-4. Decorah, Iowa: E. W. Holway, Editor, Cooley & Holway's Novelty Press Print, January-October, 1875. The first four issues, apparently comprising a complete set. 40, (4) pages. Original printed tan wrappers, first and last a little dusty. Fine. (150.00)
 Bourne 1870-19. One of the few early American numismatic periodicals with a European flavor. German coins and medals are discussed in each issue, along with notes on upcoming American coin sales, a report on a meeting of the American Numismatic and Archaeological Society, etc. In the first issue, the editor writes: "This Journal shall be published a year—subscribers or no subscribers." Evidently, there were too few to warrant a second volume.

331 Doughty, Francis Worcester. THE CENTS OF THE UNITED STATES: A NUMISMATIC STUDY. EXTENSIVELY ILLUSTRATED FROM SELECTED SPECIMENS. New York: Scott Stamp and Coin Co., Ltd., 1890. (6), 115, (1) pages, text figures, 2 tables (1 folding), 4 lithographic plates of coins. Period dark brown cloth, lettered in gilt, floral green endsheets, top board edges just a trifle chewed. (150.00)
 "C. E. Mochlering 'ANA 215'" written in ink at the base of the second free flyleaf. Dr. Sheldon notes that this work was based on research conducted by David Prosky a decade earlier and published in a series of articles in the *Coin Collector's Journal*. "Prosky was the first to try to bring descriptive order to the study of early cents as a whole. For unknown reasons Prosky appears to have passed the work and his unfinished notes on to Doughty who republished the work in 1890 under his own name. Sheldon further observes that 'The Prosky designations thus became Doughty designations, although it has been said that Doughty scarcely knew one date from another.' The copy at hand features numerous pencil notes made by the same collector who annotated the Chapman and Frossard. Many works offered elsewhere in this sale (vide lots 320 & 337). The annotations present here are similar, are present throughout the volume, and often are quite interesting. An inventory of the collection is not included.

332 Eckfeldt, Jacob R(eese) & Du Bois, William E(wing). A MANUAL OF GOLD AND SILVER COINS OF ALL NATIONS, STRUCK WITHIN THE PAST CENTURY. SHOWING THEIR HISTORY, AND LEGAL BASIS, AND THEIR ACTUAL WEIGHT, FINENESS, AND VALUE, CHIEFLY FROM ORIGINAL AND RECENT ASSAYS, WITH WHICH ARE INCORPORATED TREATISES ON BULLION AND PLATE, COUNTERFEIT COINS, SPECIFIC GRAVITY OF PRECIOUS METALS, ETC. WITH RECENT STATISTICS OF THE PRODUCTION AND COINAGE OF GOLD AND SILVER IN THE WORLD, AND SUNDRY USEFUL TABLES. ILLUSTRATED BY NUMEROUS ENGRAVINGS OF COINS, EXECUTED BY THE MEDAL-RULING MACHINE, AND UNDER THE DIRECTION, OF JOSEPH SAXTON, OF THE UNITED STATES MINT. (bound with) SUPPLEMENT TO THE MANUAL OF COINS AND BULLION. Philadelphia: Published at the Assay Office of the Mint, 1842-1849. (4), iv, (5)-220; (221)-240 pages, fine frontispiece engraving of the Mint building, 16 finely engraved plates of coins, fine plate of California and Mormon coins printed in gold and in relief on a royal blue background, two actual samples of California gold on page 235 mounted under a small cardboard rectangle with the nuggets protected by a thin sheet of mica, tipped-in illustrated slip at the end describing Mormon coins. Quarto: 27.5 x 22 cm. Original brown half morocco, gilt, binding a bit worn, small tear at inner margin of title neatly repaired, frontispiece a trifle discolored as usual. Near fine. (1,500.00)

Clain-Stefanelli 7899. Sigler 757. Pencil signature of G. A. Osborne on front flyleaf. The extremely rare December 1849 supplement comprising pages 221-240 contains the attractive plate of California and Mormon gold coins (probably the earliest metallic embossed coin illustrations produced in this country), the tipped-in Mormon plate and the first appearance of the unusual and sought after packet of actual gold samples. The principal work itself is a landmark in American numismatics. For nearly two decades it was the only practical guide available to American coin collectors. It was also the first work to announce and depict pioneer gold coins and the first to illustrate the 1804 dollar. It is also one of the earliest works to combine daguerrotype photography, electrotyping and the medal ruling machine for illustrative purposes.

An Extremely Rare Binding Variant of this "extraordinary and colorful souvenir of the Gold Rush"

333 Eckfeldt, Jacob R. & Du Bois, William E. NEW VARIETIES OF GOLD AND SILVER COINS, COUNTERFEIT COINS, AND BULLION; WITH MINT VALUES. Philadelphia: Published by the Authors, and for sale by the principal booksellers; also at the agencies of Adams & Co., at Panama and San Francisco, 1850. *First Edition*. 60, (2) pages, 3 text illustrations, fine frontispiece engraving of the Philadelphia Mint building, attractive plate of California and Mormon coins printed in gold and in relief on a royal blue background, two actual samples of California gold on page 45 mounted under a small cardboard rectangle with the nuggets protected by a thin sheet of mica, tipped-in illustrated sheet at the end describing Mormon coins. Duodecimo: 183 x 120 mm. Original white paper boards, lettered in gilt and silver, featuring embossed illustrations of American gold and silver coins in metallic tints, all page edges gilt, spine a bit worn, otherwise a fine unrestored example. (1,500.00)

Clain-Stefanelli 11882. Wheat, *Gold Rush* 67: "Actual samples of California gold...render this little book an extraordinary and colorful souvenir of the Gold Rush." A rare and delightful numismatic memento of California Gold Rush days issued to supplement the author's landmark 1842 work. The original edition appears to have been substantial and copies were bound in several colors: black, blue, red and white, with black the most common and white the least. Through the years, many copies have undoubtedly perished and the gold samples have been often removed. This charming little volume is also greatly desired by collectors of Western Americana, further adding to its scarcity in numismatic channels. The only other copy we recall ever seeing with white boards belonged to Henry Clifford. Missing the gold samples, it was sold in the 1982 Bowers and Ruddy sale (lot 490 @ \$250).

334 Frossard, Ed., *Editor*. NUMISMA. VOLS. 1-10. Irvington, N. Y., January, 1877-December, 1891. A complete set, excepting only two issues: Vol. IV, No. 4, July, 1880 & Vol. X, No. 3, March, 1889. Nearly 500 pages, occasional illustrations. Quarto. All self-covered as issued, occasional minor soiling or staining in later issues but generally fine. (1,000.00)

Ex Chateau de Ramezay, with the ink stamp on one issue of the Library of the American Numismatic & Archaeological Society of New York. Clain-Stefanelli 309. John Adams page 68: "Frossard opened his own business in 1877 and initiated his own periodical, *Numisma*. This latter, undoubtedly the most lively publication of its kind, provides us with an intimate glimpse into the hobby as it and its personalities then existed. The editor deals out praise to his friends but doesn't hesitate to flout offending competitors, a list which includes Scott, Prosser (he of the India Rubber conscience), Mason, Steigerwald, Woodward and the Chapmans, among others." Frossard's writing are often amusing and biting at the same time. Over a century later it still makes for delightful and instructive reading. The original set offered here is nearly complete and in above average condition with a fine provenance.

335 Frossard, Ed. [HART]. CATALOGUE OF THE IMPORTANT HISTORICAL COLLECTION OF COINS AND MEDALS MADE BY GERALD E. HART, ESQ., COMPRISING ANCIENT COINS OF GREECE, ROME AND JUDAEA, MEDIAEVAL AND MODERN COINS, CHIEFLY OF FRANCE AND ENGLAND, IN GOLD AND SILVER, HISTORICAL MEDALS OF AMERICA, A MOST COMPLETE COLLECTION OF COINS, MEDALS AND TOKENS OF CANADA, ETC. New York: *Eighty-Ninth Auction Sale*, December 26-28, 1888. iv, (3)-114 pages, 1672 lots, 6 fine tinted artotype plates. Modern maroon cloth, gilt, original printed wrappers (repaired at margins) and printed front of the original envelope housing the plates bound in. Fine. (200.00)

Ink stamp of Saul Hendron on title. Adams 4+. The Hart collection was one of the great all-time sales of Canadian coins, tokens and medals. Also featured were Indian peace medals and communion tokens.

Ex Henry H. Clifford estate. A remarkable body of materials. It, along with John J. Ford, Jr.'s August 1967 *The Franklin Hoard of United States Assay Office of Gold Coins and Walter Breen's 1967 Evidence to be Read at the Trial of the Knave of Hearts: Report on the Controversial USAOG \$20 Coins (PF Hoard)* to the *Garland-Ryan Arbitration Panel*, helps to complete the record concerning this famous, still unresolved, controversy. To our knowledge, it is the first time that a copy of Eric P. Newman's *Inquiry* has come to market—or any of the additional documents and letters included here, for that matter. In the late 1950's, a hoard of 1853 United States Assay Office of Gold coins were unearthed by Paul Franklin in Arizona. Many of these coins were subsequently marketed by New Netherlands Coin Company. One of the coins, a "proof" \$20.00, later was purchased from Tom Ryan by Paul Garland who became convinced that it was not genuine and was not a proof. Garland brought the matter before the Professional Numismatists Guild arbitration committee at the 1966 A. N. A. Convention where Newman's *Inquiry* was presented, asserting that the USAOG hoard coins were modern counterfeiters. Newman's March 1967 Report is an analysis of an USAOG "proofing" ingot sent by Leo Young, at the suggestion of the arbitrators, for examination. In August 1967 the PNG arbitration committee again met at the A. N. A. Convention and it was here that John Ford presented his well known response. Breen's lesser known manuscript was prepared independently and presents his own findings as an *amicus curiae* or "friend of the court." Though written from entirely different viewpoints, their conclusions largely complement each other and strongly support the authenticity of the coins in question. Garland's inflammatory letter to John Duncan eventually ended up in the hands of the Smithsonian Institution's S. Dillon Ripley. He responded to Emanuel Celler in part: "careful study has been given to its content, much of which refers to matters... which do not appear to be germane to the legislation pending before your Committee. Disregarding these references to problems elsewhere, as well as the personal remarks which might be considered actionable in another context, the letter may be summarized as alleging that the Lilly Collection contains 'many counterfeit pieces'..." Ripley goes on to recount Abe Kosoff's favorable "appraisal, report, and supporting testimony" and to note that "most of these coins were acquired from Stack's, New York, who implicitly guaranteed their authenticity at the time of sale to Mr. Lilly." He concludes with Dr. V. Clain-Stefanelli's opinion that there was "no evidence whatever to support the unsubstantiated allegations made by Mr. Garland." Don Taxay's detailed January 30, 1968 letter concludes: "On the basis of my own examination of the subject, supplemented by Walter Breen's die study and the affidavits of Prof. Woodbury and other qualified experts, I would not hesitate to pronounce the hoard genuine... The case for their genuineness is overwhelming and irrefutable." The Feb. 16, 1968 Taxay-Breen letter is critical of the decision reached by the Carr-Bergen-Merkin Panel that the Ryan-Garland coin was not a proof, noting that the chairman of the panel had not even read Breen's report but that they were able to dispel "the erroneous notion expressed by Mr. Carr that 'proof' was a condition as is 'uncirculated'." Both of Taxay's *Statements* recount the decision reached by the Arbitration Panel on February 15-17, 1968. He describes the vitriolic "so-called 'inquiry' held on February 15th and the initial decision reached the following day, stating that the Ryan-Garland coin was 'not a genuine proof' U. S. Assay Office twenty-dollar gold coin." He continues: "This information was conveyed to me by Mr. Abe Kosoff who was present... He says that as he found the wording of the decision ambiguous, he questioned Mr. Carr and Mr. Merkin about it. Mr. Breen was not then present. Mr. Kosoff asked Mr. Merkin whether he thought

the coin was not a proof, but was a genuine coin. Mr. Merkin said yes, and that they were unanimous in their belief that it was not a proof coin. Mr. Kosoff then asked Mr. Carr if he thought the coin was genuine. Mr. Carr, according to Mr. Kosoff, said he was not certain. Mr. Kosoff pressed him for a direct reply, and Mr. Carr is said to have finally asserted (unofficially) that he thought the coin was a fake. He also said that Mr. Bergen was of the same opinion. Subsequently, in semi-private session, the Panel members decided to revise their opinion, and did so by deleting the word 'genuine' so that it now stated 'not a proof U.S. Assay, Office twenty-dollar gold coin.' Taxey's second deposition concludes: "In my opinion, the Panel has failed utterly to perform the duty it accepted with regard to the Ryan-Garland dispute, and has conducted itself with a most amazing disregard for arbitration procedures." Professional Numismatists Guild President Leo Young's "final report" diplomatically states that "the panel had no concrete evidence that the coin was genuine and on the other hand, they had no concrete evidence that the coin was false... The panel, of course, was unanimous that the Garland/Ryan coin is not a Proof coin." Young's March 8th, 1968 letter to the three panel members, however, is exhorting: "Your Chairman, Ronnie Carr, came into my office recently to return sundry items I had supplied him with regarding this controversy, as well as to present me with a signed copy of your decision on this problem. To say I was disappointed, is to put it mildly. I received and heard many praiseworthy comments regarding the quality, integrity and the forthrightness of your three men. I felt we had men of such calibre that they could not be intimidated, bluffed, coerced, or backed into a corner. However, I was wrong. After all the work, time, concern and numismatic national interest evolved by this problem, and then for you three men to render an opinion that the coin was 'NOT PROOF' and nothing else is, to me, almost unbelievable. You well know that was never the problem to be considered. All of John Ford's early correspondence refers to this coin as Proof-like. Garland made the flat charge that the coin was false; a phony, a counterfeit. Now, if you believe the coin 'genuine' why did you not say so? Or, if you believed it 'false', why did you not say so? With your weak report, of only saying the coin was not a Proof, you in reality are evading the issue; why? Because you don't know? Then say so. Because you were scared? Then say so." Young's letter concludes: "Based on your 'report' as my guide, I think you owe John Ford a warm letter for his patience, perseverance, and the terrible maligned he suffered by innuendo. Apparently, he came through this ordeal with his position intact."

337 Frossard, Ed. & Hays, W. W. VARIETIES OF UNITED STATES CENTS OF THE YEAR 1794, DESCRIBED AND ILLUSTRATED... FROM THE MAGNIFICENT CENT COLLECTION OF E. GILBERT, ESQ. OF NEW YORK CITY, AND REPRINTED WITH ADDITIONAL NUMBERS BY THOS. L. ELDER OF N. Y. CITY. New York: The Elder Numismatic Press, 1910. Title, blank leaf, 5-26, (6) pages (last 5 pages blank), 4 fine photographic plates, pencil annotations in the text and on the plates. Quarto. Original brown cloth, gilt, label of Rud. Kohler affixed to the front pastedown. Near fine. (125.00)

One of only 300 copies printed. The work was based on Hays' fine collection. In the preface, Frossard notes that "It is but just to my collaborator, Mr. Hays, the man through whose patience and perseverance a complete set of the 1794 Cents was collected, that the varieties in this new classification should bear his name. For this reason, it is desired that when referring to this work the varieties should be announced and known as Hays. No. 1, 2, 3, etc." The copy at hand features numerous pencil notes made by the same collector who annotated the Chapman and Doughty works offered elsewhere in this sale (*vide lots 320 & 331*). The annotations present here are similar and often quite interesting but do not include an inventory of the collection.

338 Haseltine, John W. [CHUBBUCK]. CATALOGUE OF A VERY LARGE AND VALUABLE COLLECTION OF GOLD, SILVER AND COPPER COINS AND MEDALS, COMPRISING THE CABINETS OF S. W. CHUBBUCK, OF UTICA, N. Y., AND OTHERS. Philadelphia, February 25-28, 1873. 127 leaves, printed on rectos only, 2896 lots, 5 fine photographic plates, mounted on thick card stock as issued. Contemporary dark brown half morocco, lettered in gilt, spine detached and in pieces, covers coming loose, internally very fine. (600.00)

The Deluxe Edition. Ex libris Société de Numismatique et d'Archéologie. Bibliothèque du Château de Ramezay Montreal, binder's ticket of U. Perrault, Montreal, affixed at the base of the front pastedown. Adams A. page 48: "The only real rarity of the (Haseltine) series is a plated Chubbuck, of which fifty copies were made." Of these fifty plated copies, only a few, as here, were issued with the specially-printed text. The first plate depicts rare American silver coins; the second comprises illustrations of coins of the Far East; the third features large cents 1793-1832; the fourth depicts European and Latin American medals and two ancient coins; the fifth illustrates three large European medals and a silver Libertas Americana medal.

339 Hayden, Horace Edwin. A BRIEF HISTORY OF THE SOLDIER'S MEDALS, ISSUED BY THE STATE OF WEST VIRGINIA, AS "TOKENS OF RESPECT" TO THOSE OF HER CITIZENS WHO SERVED IN THE ARMY OF THE UNITED STATES, FROM 1861 TO 1865. Wilkes-Barre: E. B. Yordy, 1881. (2), 17, (1) pages, title printed in red and black, 1 very fine photographic print, mounted as a frontispiece, depicting three medals for honorable discharge, for liberty and killed in battle. Original printed gray wrappers a trifle worn and dusty. Fine. (150.00)

EDITION, 100 COPIES. Originally read before the Historical Society of West Virginia in 1879 and the Numismatic and Antiquarian Society of Philadelphia in 1881. Paradoxically, the author fought for the Confederacy. His work begins: "True courage, whether displayed in a righteous conflict, or an unholy war, commands and receives universally the admiration of friend and foe." Rarely offered.

340 Johnson, Edwin L. J. A. BOLEN'S MEDALS, CARDS, AND FAC-SIMILES. AN ACCURATE AND COMPREHENSIVE DESCRIPTIVE CATALOGUE OF BOLEN'S WORKS, WITH NUMBER STRUCK IN EACH METAL, DISPOSITION OF DIES, AND OTHER DETAIL. Springfield: Numismatic Printing and Binding Company, 1882. 14, (4) pages, 43 listings, interleaved. Original pebble-grained red cloth, slides decoratively ruled in blind, upper cover decoratively lettered in gilt. Fine. (200.00)

Clain-Stefanelli 12133. Copy No. 47 of the Interleaved Edition. Very rare. Today, John Adams Bolen is perhaps best known for his well-executed copies of American colonial coins, which, though never meant to deceive, have at times been mistaken as originals. Johnson's useful work was authorized by Bolen and enumerated his famous productions for the first time. In 1905, Bolen himself issued an updated catalogue.

341 Maris, Edward. A HISTORIC SKETCH OF THE COINS OF NEW JERSEY, WITH A PLATE. CONTAINING SPECIMENS OF THE MARK NEWBIE COPPERS, AND THE ISSUES OF 1786-7-8: WITH THE OBERVESSES, REVERSES AND COMBINATIONS OF THE DIFFERENT VARIETIES OF THE LATTER; AND A DETAILED DESCRIPTION OF THE DISTINCTIVE DIFFERENCES AND RARITY. Philadelphia: printed by William K. Bellows, 1881. 16, (2) pages, fine double-page phototype plate of coins by Gutekunst, Mark Newbie crowns lightly brass-tinted, a few pencil additions. Elephant folio: 48 x 30.5 cm. Nineteenth century morocco-grained dark blue cloth, lettered in gilt on the upper cover: MARIS' COINS OF NEW JERSEY. Spine worn and taped, front flyleaf and plate loose, minor waterstaining at both upper outer corners of the plate. Potentially an attractive copy, with rebacking, recasing, and a "washing" of the plate. (1,000.00)

Clain-Stefanelli 12225. Sigler 1683. The classic, still standard reference work and one of the great rarities in the literature of colonial American numismatics. The binding on this copy is something of an enigma. It differs from the blindstamped maroon or brown cloth usually encountered but is clearly quite old and perhaps contemporary to the time of publication.

342 Morin, Victor. **LES MÉDAILLES DÉCERNÉES AUX INDIENS. ÉTUDE HISTORIQUE ET NUMISMATIQUE DES COLONISATIONS EUROPÉENNES EN AMÉRIQUE.** Ottawa: Tirage Spécial de l'Auteur, The Mortimer Co., Limited, 1916. 86 pages, blank leaf, oval frontispiece portrait of the author, 31 plates depicting 48 figures, nearly all medals. Blue cloth-backed boards, handwritten label on upper cover, original printed tan card covers bound in. Fine. (250.00)

Clain-Stefanelli 14454. Exemplaire N° 52 of 200 copies, initiated by the author. Inscribed on the flyleaf: "Avec les hommages de l'auteur (signed) Victor Morin." A rare and important work. The first four chapters cover medals issued by France, Great Britain, Spain and America. The fifth and sixth chapters cover medals issued by the Netherlands and the final chapter, *Mémoires générales*, includes presentation ceremonies, wampum collars, rarity and value, replicas, etc. The work concludes with a lengthy bibliography. Morin's outstanding collection of Indian Chief medals, the basis of this work, was acquired privately by J. Douglas Ferguson.

343 Murray, Thomas. **CANADIAN COMMUNION TOKENS USED IN THE EARLY PRESBYTERIAN CHURCHES.** Cover title. Montreal, P. Q., no date. 5 magnificent photographic prints, 19.5 x 24.5 cm, depicting Communion tokens, 325 images in all. Mounted on stiff boards outlined in white, housed in a cloth-backed hand-lettered album, tied at the spine. Very fine. (250.00)
Bowman page 27: "Mr. Murray operated a book store on Bleury Street in Montreal... He had an extensive collection of Canadian and ancient coins which was sold privately by his estate." Presumably the album at hand is a unique record of an important collection now dispersed.

344 (Muscalus, John Anthony). **(THE USE OF BANKING ENTERPRISES IN THE FINANCING OF PUBLIC EDUCATION, 1796-1866).** Spine title: **THESIS/MY COPY.** The original manuscript. No place or date, ultimately published in Philadelphia in 1945. A combination of original and carbon typescript featuring handwritten additions, corrections and changes, accompanied by handwritten notes, photostatic reproductions of documentary materials, etc. 237 numbered 8 1/2 x 11 inch typed sheets, along with handwritten notes, reproductions, etc. All housed in a black pebbled cloth "Spring Binder," paper spine label. (250.00)
Unique. The manuscript changes appear to have been incorporated in the published work. A prolific author on a wide variety of obsolete paper money topics (Frank Katzen enumerates eighty publications), this relatively early work is certainly among Muscalus' most important numismatic contributions. In the introduction, he notes "With the early incorporations of banks in the United States... Most states utilized bank-stock investments or taxation as a means to aid public education. In fact... the money distributed to school districts by the State was derived entirely or almost entirely from bank-stock investments or taxation of banks... The purpose of this investigation is to trace the use of banking enterprises by the States as a means of financing public education between 1796 and 1866." Arranged by State, the work contains much valuable information on specific banks and their operations. In real life, Muscalus was a college teacher and longtime proprietor of "Acres of Books," a used book store in Trenton, New Jersey. One wonders where he found time to write so many detailed numismatic works.

Ex New Netherlands Coin Company, Inc. A complete set of all major New Netherlands publications, comprising the firm's own reference set. Unique. By today's standards, NN catalogues look rather mean. There are no color illustrations or glossy stock, little heavy, relatively few illustrations, and the format is unimpressive. Add modest estimates plus conservative assessments of condition and you have a recipe for disaster. Wrong. New Netherlands catalogues, from the 1950's on, possess a quality rarely present in catalogues of the time and not consistently present even today. CONTENT The firm excelled in selling New Netherland Americana... no junk but relatively few mainline rarities. Large cents, colonials, medals and tokens, obsolete paper, pioneer gold, etc., these were NN's forte. Yet the key to the firm's success was not the quality of the material it handled but how it was presented. Each item was meticulously described, incorporating and often presenting for the first time the latest research. The illustrations, while relatively few, were of a quality rarely exceeded since the use of special editions featuring photographic illustrations faded into obscurity in the 1920's. The results? NN got the best prices and helped develop a whole generation of inquisitive and dedicated collectors. Their catalogues were a siren's song to informed numismatists, perhaps best expressed in the words of Spink & Son's venerable price code (COME AND BUY). New Netherlands catalogues remain, two decades after the last sale, an indispensable source of information. John Adams beautifully summarizes their significance: "The New Netherlands catalogues represent something special in American numismatics. They demonstrate with eloquence that the business of dealing in coins can also embrace the functions of educating the collector and preserving the traditions of the hobby. In so doing the members of the firm have set an example which, though rarely observed, will nonetheless act as a beacon to the profession in years to come."

346 New York Coin & Stamp Co., H. P. Smith & D. Proskey, [DAVIS]. **CATALOGUE OF THE COLLECTION OF COINS, MEDALS, TOKENS AND CURRENCY FORMERLY OWNED BY THE LATE ROBERT COULTON DAVIS, NOW OWNED BY A PRIVATE GENTLEMAN.** New York: Bangs & Co., Auctioneers, 1889 [January 20-24, 1890]. (2), ii, (3)-128 pages, 2914 lots, 4 fine tinted photographic plates, neatly priced in red ink, printed slip in red ink providing the place & date of sale and other pertinent details tipped in on the title. Quarto: 30 x 24 cm. Contemporary black half morocco, lacking spine, covers loose, internally fine. (400.00)
Autographed in ink at head of third front flyleaf: "J. Colvin Randall, Philad" and inscribed below: "Purchased of H. G. Clay in 1899. Property of R. W. Sharp-Camden, N. J." Subsequently in the Chateau de Ramezay Library. Adams Ave. "Magnificent sale..." An outstanding collection of American coins, particularly rich in rare patterns, possibly, as Adams notes, the property of Lorin Parmelee at the time of sale. Tipped in this copy is a superb photograph, on the second front flyleaf, of R. C. Davis by F. Gutekunst, mounted on his stiff printed studio card, 16.5 x 10.5 cm, and inscribed in ink on the back: "R. Coulton Davis, Philad" 1888. "A most desirable example of this scarce catalogue, with a fine provenance, the rare sale date slip, and a Gutekunst portrait of the collector."

James Clarke at the sale of Adams' library in Thomas Elder's June 27, 1932 auction, with a note in Clarke's hand to that effect on the second front flyleaf. Ex libris Charles M. Johnson, along with his and a subsequent owner's ink stamp elsewhere. In the late 1970's early 1980's we purchased and sold this and another plated Woodside sale — the only two we have ever seen. This year both have reappeared for sale at auction. To our knowledge, no other copies have come to market in the interim. The Woodside collection of over 400 United States pattern coins is one of the finest ever formed and, with plates, is truly one of the great rarities of American numismatic literature. The example offered is of special importance. Not only are both of the celebrated Linderman catalogues and the important Doughty pattern sale included, all of the catalogues are handprinted (excepting of course the 1887 Linderman sale which never took place). Most significantly, the volume at hand once belonged to the man who wrote the book and, perhaps more than anyone, helped to popularize these wonderful metallic witnesses of "what might have been."

Fine. (3,000.00) Clain-Stefanelli 13616. McKercher 550. Sigler 1960. Ex libris Charles M. Johnson, also ink stamped. Earlier in the library of Dr. George P. French with his bold autograph on the second front flyleaf and subsequently in the library of John W. Adams. Not in the Fuld Library sales. A sumptuous work, produced at great expense, with a panoply of superb bank note engravings. Ormsby was proprietor of the New York Bank Note Company and one of the founders of the Continental Bank Note Company. Undeniably written with the author's own business interests in mind, this work nonetheless provides unparalleled insights into the topics covered. His detailed exposition of the methods of bank note engraving employed at the time is especially valuable. Ormsby's basic premise is stated in the introduction: "The Art of Bank Note Engraving as practised in the United States, essentially differs from that of any other country. Our mode is more expeditious, and our notes more beautiful; but that important feature, *security against forgery*, which ought to be paramount to every other consideration, seems to have been almost entirely disregarded, or, at least, to have escaped that attention, which a subject of such importance deserves." His solution to the problem was a marriage of technology and craftsmanship, aptly described in the *Dictionary of American Biography*: "During the first quarter of the nineteenth century the process of bank-note engraving was cheapened and facilitated by the introduction of machinery, and by the end of the century craftsmanship had been almost entirely superseded. Ormsby represented a curious combination of the two techniques. He was a versatile and accomplished inventor of machinery to facilitate the processes of engraving, but he was bitterly opposed to the complete replacement of the artist-craftsman. He held that notes should be engraved upon a single plate, with careful craftsmanship exerted on the design and interdependence of the composition. The counterfeiter would thus be foiled 'not because he does not know how the work is done, but because he cannot do it' (*Cycloidal Configurations*, p. 37)." An 1853 letter by Ormsby written to Franklin Pierce sheds further light on his solution: "My plan is to have a counterfeiter then would be obliged to do the work himself instead of employing others who do not know for what purpose their work is to be used." Ormsby considered himself to be discriminated against in business but, in essence, the forces of industrial change and reorganization were against him. He was an excellent engraver, however, and his designs for bank notes were in wide use all the way into the 1860's. This magnificent volume stands as a testament to his remarkable craftsmanship and numerous technical innovations. In an 1985 *Asylum* article by Robert Wester on Ormsby and this book, he relates that only five copies were known to him at the time. Of the several copies sold in the interim, only two, or possibly three, copies were not included in Wester's count. Thus, this magnificent work remains one of the great rarities of American numismatic literature and the most desirable volume ever published on American paper currency.

349 (Paine, Thomas). DISSERTATIONS ON GOVERNMENT, THE AFFAIRS OF THE BANK, AND PAPER-MONEY, BY THE AUTHOR OF "COMMON SENSE." Philadelphia: PRINTED BY CHARLES CIST, MDCCCLXXXVI. REPRINTED FROM THE ORIGINAL PAMPHLET WITHOUT NOTE OR COMMENT. 1838. 54 pages, blank leaf. 22 x 14.5 cm. Original printed blue wrappers, printed label of Charles Allen Lewis, Indianapolis, affixed to the bottom of the front wrapper, contemporary handwritten note in ink on inside front wrapper. (150.00)

Sigler 1976. An important work from the pen of the great American Revolutionary patriot, writer and political thinker. It refutes arguments advanced against the Bank of North America, and goes on to enumerate Paine's strong objections to the issuance of paper money, which he neatly capitalized as follows: "I remember a German farmer expressing as much in a few words as the whole subject requires: 'Money is Money and Paper is Paper.'" A rare early reprint of the only numismatic title written by the author of *Common Sense*.

350 (Pembroke, Thomas, *Earl of*). NUMMI ANGLICI ET SCOTICI CUM ALIQUOT NUMISMATIBUS RECENTIORIBUS COLLEGIT THOMAS PEMBROCHIAE ET MONTIS GOMERICI COMES. (London, 1746). *Large Paper Copy*. Finely engraved title, 41 engraved plates, depicting mostly English and Scottish coins. Folio: 39 x 27.5 cm. Eighteenth century polished tan calf, panelled in gilt, board edges decorated in gilt, crimson morocco spine label, gilt, joints broken, internally very fine. (250.00)

Finely engraved armorial ex libris Lady Frances Hill, subsequently in the library of the Canadian Numismatic and Antiquarian Society, though without identifying marks. The fourteenth plate, with the heading *Coins of English Colonies & Settlements abroad*, features the first known illustrations of American colonial coins, including the Lord Baltimore six pence and great, Massachusetts Willow Tree three pence, six pence and shilling, Oak Tree two pence, Carolina Elephant token and the so-called "Good Samaritan" shilling. Always included as part of the main Pembroke catalogue, a small number of copies of this "fourth part" were also issued separately and a very few copies, as here, were specially printed on large paper.

351 Sage, Augustus B. [BOGERT]. CATALOGUE OF THE EXTENSIVE AND VALUABLE CABINET OF COINS AND MEDALS, THE PROPERTY OF HENRY BOGERT, ESQ. April, 1859 Aug. B. Sage printed form letter pasted to the second front free flyleaf. (250.00)

Attinelli page 14. Adair B. The role of Augustus B. Sage in the early development of American numismatics is largely unappreciated today. In a brief period of time his contributions were valuable and many. According to Adelson, Sage "was one of the most important founders of the (American) Numismatic Society." Editorial meetings in 1858 at his residence, in fact, led to its formation. His writings in the *New York Sunday Dispatch* in 1857, entitled "Gleanings from Coins," were widely read and prompted a series of witty responses from Charles Bushnell. Sage conducted his first coin auction in 1855 and held three more in 1859, of which the Bogert sale is the most notable. Priced and named copies are rare. Buyers at the sale included Bushnell, Groh, Lewis, Curtis, Oliver, Lawrence, Eschsch and many others whose names today are unknown. According to Attinelli, the sale totalled \$2,198.47 (this copy says \$2,197.48, noting: "Correct Note after the Returns of Bogert"), the highest price ever achieved at an American coin auction at the time. By way of comparison, Edward Cogan's famous first sale, only nine months earlier, brought \$128.63. The Sage letter accompanying this volume offers a "splendid collection of Coins and Medals" consisting of some 2,500 "persons," together with a descriptive "Catalogue." Priced at \$2,500, the collection, including the catalogue and a cabinet, was deemed "very suitable for a University or any Institution."

352 Sandham, Alfred. MEDALS COMMEMORATIVE OF THE VISIT OF H.R.H. THE PRINCE OF WALES TO MONTREAL IN 1860, BY ALFRED SANDHAM, AUTHOR OF "COINS OF CANADA," "MONTREAL, PAST AND PRESENT," &C., &C. ILLUSTRATED BY W. NOTMAN, PHOTOGRAPHER TO H.M. THE QUEEN AND H.M. NAPOLEON III. PRINTED FOR PRIVATE CIRCULATION. Montreal: J. Starke & Co., Printers, St. Francois Xavier Street, 1871. Presentation leaf, superb mounted photographic full-length portrait front/side of Prince Arthur with tissue guard, image size: 9 x 6 cm; 8 leaves, printed on rectos only, with a lithographic vignette of the Prince's plumes near the head of the title; lithographic view of Victoria Bridge with tissue guard and facing leaf of descriptive text; 7 superb mounted photographic plates, each depicting both sides of a medal, image size: circa 6 x 9 cm, all with tissue guards and one or more leaves of text (11 leaves in all, printed on rectos only). Described in link to The Numismatic and Antiquarian Soc. of Montreal, signed "Alf Sandham" flourish below. Ex libris Société de Numismatique et d'Antiquaire. Bibliothèque du Château de Rameray Montreal. A handsome production with superb photographic illustrations and the first of a projected series of *Medals of Canada*. The rear cover comprises advertisements of the author's work on the coins, medals and tokens of Canada, his *Ville-Marie*; or, *Sketches of Montreal: Past and Present*, and a "Medal dedicated to the Numismatic and Antiquarian Society of Montreal." This last was also No. 1 of a projected series, of which all were to be struck in white metal. One might surmise that a similar number of copies of the work at hand were printed and this quantity is in fact confirmed by a typed author's memo in the copy in the library of Warren Baker. Of the fifty copies issued, many were undoubtedly presented to personages outside of numismatic circles, making this delightful little volume one of the great rarities of early Canadian numismatic literature. It may be the earliest photographically illustrated work published in Canada, issued a year before Sandham's work on McGill College medals.

L. A. Renaud's copy, dated 1910 and boldly autographed in ink on the verso of the front/side plate. Baker 24. Rare. The work was written "to furnish the friends of McGill College with a reliable account of its origin and subsequent progress, and to supply additional information upon the subject of Canadian Numismatics."

354 Scott Stamp & Coin Co., Ltd. [HART]. CATALOGUE OF THE VERY VALUABLE COLLECTION OF CANADIAN COINS, MEDALS AND TOKENS, FORMED BY GERALD E. HART, ESQ., OF MONTREAL INCLUDING MANY OF THE WELL KNOWN RARITIES AND GENERALLY IN THE CHOICEST CONDITION... *132d SALE*. New York, April 13, 1895. 355 Skipton, Amy C. ONE FATT CALFE: BEING AN ACCOUNT OF THE NEW ROCHELLE HALF-DOLLAR AND OF THE CELEBRATION MARKING THE 250TH ANNIVERSARY OF THE FOUNDING & SETTLEMENT OF THE CITY OF NEW ROCHELLE N.Y. New Rochelle: New Rochelle Commemorative Coin Committee, 1939. (8), 123, (1) pages, 13 plates. Original blue cloth, top of rear cover discolored else fine. (250.00)

Inscribed in ink on the verso of the half-title: "To Mr. Watson Whose chance word inspired this record. (signed) Amy C. Skipton.". One of only 200 copies printed in Caslon type on Lineweave Rag Book paper at Pell Press. The author was the Executive Secretary of the Coin Committee and she wrote this work "in the hope that it may serve as a signpost to future Celebration Committees in planning an event such as was celebrated in 1938." It includes portraits of the main participants, including the designer Gertrude Lathrop and her "Fatt Calfe" model (preparing to plant a kiss on Gertrude's cheek). It even features a poem by the author "Beautiful coin, so silvery white". Humorous aspects aside, this work remains the most detailed account ever written surrounding the issuance of a commemorative half dollar. Even the poem is instructive. In their work on commemoratives, Swiatek and Breen wrote: "Many people believe that the figure in the late 17th century is meant for John Pell, but this is unconfirmed." Mrs. Skipton rhapsodizes: "On your reverse you bear the Lily of France/While on obverse once more the 'fatt calfe' doth prance/And Lord Pell in a costume befitting the day/Receives him as 'quint rent'—so our annals do say." Further on she writes: "To protect the collector, when we found our profits supplied an ample sum for our Celebration purposes with New Rochelle's demands for the coins filled, we returned to the Mint for melting a quantity of the coins; as soon as the Celebration was over the unsold balance was at once returned for melting, this upholding the price and keeping faith with the collector."

A Superb Example of the First Specialized Work on American Colonial Coins

356 Slaughter, Rev. Edmund F(arwell). THE VERMONT COINAGE. Montpelier: Reprinted from the first volume of the Collections of the Vermont Historical Society, 1870. 30 pages, 2 fine lithographic plates of coins. 260 x 157 mm. Original pebble-grained green cloth, sides attractively panelled in blind, upper cover decoratively lettered in gilt, top page edges gilt, chocolate end-sheets. Very fine. (1,500.00)

One of FIFTY COPIES ONLY PRINTED. Sigler 2343. Ink inscription on the recto of the second free flyleaf: "The Numismatic and Archaeological Society, Montreal, Canada, from the Author. Boston, 11 Beacon St., 27 June, 1871." Ex libris Société de Numismatique et d'Archéologie, Bibliothèque du Château de Ramezay Montreal. Slaughter (1816-1906) was a noted Protestant Episcopal clergyman and author. He graduated from Dartmouth in 1840 and subsequently studied at the Andover Theological Seminary. He was ordained a priest in 1845. An interest in genealogy soon ripened into historical research and he served as secretary (1865-1866), vice-president (1866-1880), and president (1880-1906) of the Prince Society, an organization formed in 1858 to preserve and extend the knowledge of American history by editing and printing important source material. Slaughter's main numismatic work was a great improvement over the chapter on the topic in Hickox's 1858 *Historical Account of American Coinage*, but it, in turn, was soon superseded by Crosby's 1875 magnum opus. Today, *The Vermont Coinage* is a fabled American numismatic rarity. If all fifty copies were actually distributed, it would appear that few have survived. Only one copy has come to market in the modern era, in a 1990 Orville Grady sale and subsequently in the first Champa sale. The example at hand is inscribed, superior in condition, and features a fine provenance.

357 Stanly, (Edward) et al. SKETCH OF THE REMARKS OF MR. STANLY, ON THE BRANCH MINT IN NORTH CAROLINA; TOGETHER WITH EXTRACTS FROM THE SPEECHES OF MESSRS. EVERETT, MORGAN, AND REED, EXPOSING VARIOUS ABUSES IN THE EXPENDITURES OF THE PUBLIC MONEY. Washington: Gales and Seaton, 1840. 16 pages. Once bound. (150.00)

A three term member of the House of Representatives from North Carolina, Stanly surprisingly attacks "various abuses" and proposes reducing the salary of the Superintendent of the Charlotte Mint, Col. John Hill Wheeler, to "no more than fifteen hundred dollars a year." Though he admits "that this branch mint has been thus far a mere humbug" he opposes "the proposition to discontinue operations there before the experiment has been tested." His actions appear to be at least in part politically motivated and, while criticizing the Administration, he notes that "as North Carolina has hitherto had little from the General Government comparatively, I am more unwilling to take from her whatever of advantage this branch mint may be." He comments on some of the expenditures of "a democratic superintendent of a branch mint" as follows: "A scrol sofa, a mahogany pen bedstead, a hair mattress, six mahogany chairs, and a chair covered with morocco for office—what the democratic odor from best double dahlias, chachous japonicas, &c. &c., must afford wonderful facilities for coining the yellow boys! Was ever a nation humbugged as ours has been?" The construction of a summer house, carriage-house, ice house and a bathing house were castigated: "What snob arrangements for coining money? What glorious specimens of democratic economy!" He notes that "In December, 1839, the Imam of Muscat wrote the President of the United States a letter, and sent him several presents. If the bottle of oil of rose could be retained by our democratic Majesty, I hope one demijon of rose water will be sent to the branch mint at Charlotte, N. C." Originally a Whig, Stanly later moved to California where he unsuccessfully ran for governor as the Republican candidate in 1857. Undoubtedly entertaining and amusing, Stanly's "Remarks" also provide considerable insight into the tangled affairs at the early branch mints.

No. 1154 June 11-12-1868, 12 + 3 + 15." Adams B. An important sale attended by the principal coin collectors and dealers of the day. Participants noted in this copy include Woodward, Appleton, Cogan, Bertsch, Seavey, Clay, Strobridge, Bushnell, McCoy, Jewett, etc. Many other names are unfamiliar today. A collector named Harris, for example, purchased a number of the better items in the sale, including the 1792 half dime @ \$22, a 1796 quarter dollar @ \$21 and an 1838 proof Liberty Seated half dollar (presumably Judd 79) @ \$47. The total of the main sale and the *addenda* both agree with the figures cited by Attinelli.

359 Strobridge, Wm. H. [SEAVEY]. CATALOGUE OF UNITED STATES GOLD, SILVER, AND COPPER COINS, WASHINGTON, COLONIAL, AND PATTERN PIECES, THE PROPERTY OF GEORGE F. SEAVEY, CAMBRIDGEPORT, MASS. An important sale devoted almost exclusively to American coins. Highlights included a 1794 dollar (@ \$45 to Cunningham), an 1823 quarter (@ \$50 to Cunningham, described as "The first specimen ever offered at public sale" but corrected in pencil to "2d", a "Fine proof" 1827 quarter (@ \$225 to Langdon), an 1858 gold proof set (@ \$60 to Levick), a 1796 half dollar (@ \$41 to Appleton), 1842 and 1847 proof half cents (each @ \$105 to Langdon and Ely respectively), 1792 Washington half dollar (@ \$100 to Dr. Edwards), etc., etc.

Ex Chateau de Ramezay. Earlier in the libraries of Ed. Frossard and Benjamin Betts. Inscribed in pencil on recto of rear free flyleaf: "E F at Lows S-No. 1154-Jany 11-12-1898, 12 + 3=15." Adams A+. The first auction sale conducted by Strobridge, in 1862, featured important portions of the Lilliendahl cabinet, described by Attinelli as "one of the best presented for public sale up to that time." The 1863 sale eclipsed this auspicious beginning with total proceeds nearly doubling those of the first sale. It featured choice large cents (many purchased by Hewitt), early proof sets, a 1794 dollar ("very fine," @ \$51.50 to Putnam), a 1792 half dollar ("originally in the Gilmore collection," @ \$26.00 to Nixon), an 1802 half dime ("The finest of three known," @ \$340 to Seavey), an 1823 quarter dollar ("only fair condition as a coin, but comparatively fine," @ \$62.50 to Appleton), etc., etc.

361 Strobridge, W. H. & Woodward, W. Elliot. [CLAY]. CATALOGUE OF A VALUABLE COLLECTION OF AMERICAN COINS & MEDALS, THE PROPERTY OF CHARLES CLAY, M.D., OF MANCHESTER, ENGLAND. New York, December 5-7, 1871. 97, (1), (8) pages, 1356 lots, 2 fine mounted photographic plates, mainly depicting colonial coins, partly priced in pencil and red ink, "Corrected Edition" of the New England Numismatic and Archaeological Society "Price List" bound in at the end, original printed wrappers bound in. Contemporary dark brown half morocco, spine decorated and lettered in gilt, marbled sides, extremities a bit worn. Fine. (300.00)

Ex Charles Steigerwalt, Isaac F. Wood, B. H. Collins, W. W. Hays and the Chateau de Ramezay Library. An important collection of American colonial coins, notable also for a complete list of Man collection. Although the catalogue is usually attributed to Strobridge, Woodward, as John Adams notes, had a strong hand in its conduct and promotion. In listing his output, Woodward himself designated it as Sale "C." The remarkable pedigree of this copy is documented as follows: Wood's pencil autograph appears on the front free flyleaf and front wrapper, with a pencil note on the front pastedown, presumably in his hand, appearing to record its purchase from Steigerwalt in February 1884. W. W. Hays' bold ink autograph is found at the head of the title and below the pencil note on the front pastedown as follows: "W. W. Hays, Bought of B. H. Collins." The shelf number of the Chateau de Ramezay is written in ink on the front free flyleaf.

362 Strobridge, William H. [MACALLISTER]. CATALOGUE OF PROF. J. M. MACALLISTER'S COLLECTION OF COINS & MEDALS. (New York.) Messrs. Leavitt, Auctioneers, September 24-27, 1873. Contemporary black half roan, spine ruled in gilt, original printed wrappers bound in, extremities just a trifle rubbed. Fine. (125.00)

Ex Chateau de Ramezay Inscribed in pencil on rear inside cover: "Chapmans Sale March 6-7-1894 Bought by E Frossard" (@ 20c + 5c "Com"). Adams A-. Two photographic plates were issued to accompany this sale but, as here, copies invariably seem to come with only one of them.

Contemporary crimson crushed morocco, gilt, original printed front wrappers bound in, spine worn, covers detached, internally very fine. (150.00)

Finely engraved ex libris of the Governor of Pennsylvania and noted bibliophile Samuel W. Pennypacker, with a long Philadelphia newspaper clipping pasted in on both sides of a blank leaf preceding the first title. The article is entitled "Relics of the Past. Curiosities in Coins, Books, and Autographs. Mickley's Great Collection." and reads in part: "Mr. Mickley, early in life, displayed a penchant for the collection of coins that resulted in a very few years in giving him great celebrity among those whose lives were devoted to kindred pursuits. Many will remember the famous robbery which took place in his house on Market Street, in 1867, when over half his collection, valued at \$19,000, was stolen, and that shortly after the event he disposed of the remainder for \$16,000. At a somewhat earlier time, Mr. Mickley betrayed a leaning toward bibliomania, and although during the remainder of his life he never entirely ceased the collection of coins, his books seemed to be the greatest object of his solitude, and he left behind at his death a library rich in rare and curious volumes of all countries and on all subjects." An account of the books and autographs to be sold follows, along with a brief overview of the coins. The article closes by adding that "the sale of the entire collection is expected to last one week—morning, afternoon and evening. Connoisseurs value the collection at nearly one hundred thousand dollar (sic)." (150.00)

The first twenty-one volumes complete, including special issues and the twenty year index. Volumes 1-17 are uniformly bound in seven volumes: red buckram, lettered in gilt.  Clain-Stefanelli 941. The first ten volumes are ex Ted Craige, subsequently bound. *TAMS Journals* are an indispensable storehouse of information on American medals, tokens, and related collectibles. The early issues are particularly scarce.

366 The United States Coin Company, Inc. [JACKSON]. **CATALOGUE OF THE SUPERB COLLECTION OF UNITED STATES COINS BELONGING TO MALCOLM N. JACKSON OF BOSTON, MASS. ONE OF THE FINEST COLLECTIONS OF GOLD, SILVER AND COPPER COINS EVER SOLD IN THIS COUNTRY AND A MAGNIFICENT COLLECTION OF PATTERN COINS.** New York, May 20-22, 1913. 92 pages, 1,940 lots, 16 fine photographic plates, priced throughout in black ink. Large octavo: 27 x 20 cm. Original blue cloth, gilt, binding a trifle worn, internally fine. (750.00)
 The DeLuxe edition of one of the finest sales of American patterns ever held, with an impressive array of rarities in all series. Very scarce. Jackson was a Boston stock broker who began collecting coins in 1888. Nearly 500 patterns were offered, including many great rarities, comprising, according to the auction firm, "the largest and finest collection ever catalogued for sale." The plated edition, "bound in fine blue cloth, stamped with gold," sold for \$5.00. While perhaps more available than other plated United States Coin Company sales, it would appear that relatively few "De Luxe edition" copies were issued and they seldom come to market today.

(1841-1858); Rawdon, Wright, Hatch & Edson (1835-1858); Jocelyn, Draper, Welsh & Co. (1854-1859). Apparently issued in 1857, the copyrighted designs being dated 1856 and 1857. Handsomely bound in contemporary black full morocco, sides and spine quaintly decorated in blind, upper cover lettered in gilt, chocolate brown endsheets, front joint starting, corner on one leaf a little creased, pencil note on verso of front flyleaf: "33 proofs before letters." Very fine. (1,000.00)
 A superb presentation volume featuring a wonderful variety of thirty-three finely engraved vignettes produced by several different bank note engravers. Fifteen are signed by Rawdon, Wright, Hatch & Edson, with ten featuring the firm's circular blindstamp on the card stock; three are signed by Baldwin, Bald & Cousland; one is signed by Draper, Welsh & Co.; one is signed by Jocelyn, Draper, Welsh & Co.; twelve are unsigned; and the name has been largely erased on one. Vignette sizes vary greatly, some being 10 cm high, others 15 cm wide, a few being quite small. Most of the engravings are unnamed and only two are named: The Red Ear and Red Jacket. Scenes depicted include a long view of passenger and freight trains; buildings; sailing ships; cattle at a water hole; maidens in pastoral settings; maidens frolicking in the sea; shucking corn; Indian maiden on a hilltop; Indian hunter; wild horses; maidens milking a cow; sailor hoisting the flag; woman sewing; maidens churning milk; Negro mother and child; riverboats; Washington in battle; two women with machinery in the foreground; woodcutting scene; farming scenes; trading with the Indians; Franklin and industry; allegorical engravings; etc. A delightful assemblage. Extremely rare and most desirable; the only example of its type we have ever seen.

368 [Vignette Book]. U. S. TREASURY DEPARTMENT, SPECIMENS, BUREAU OF ENGRAVING AND PRINTING. WASHINGTON. GEO. B. MCCARTHEE, CHIEF OF BUREAU. GEO. W. CASILEAR, SUPT. OF ENG'S & C. (Washington, D. Grant, finely engraved title printed in red and black, 102 additional superbly engraved portrait and vignette plates bound in with tissue guards, one plate attractively tinted in several colors, all of the foregoing engravings mounted on thick card stock. Thick oblong small quarto: 19 x 24.5 x 5 cm. Very fine. (2,000.00)

A very clean and fresh vignette book in unusual format, presented to Hon. M. H. Carpenter with his name stamped in gilt within the central gilt lozenge on the upper cover. Sixty of the plates are portraits of Presidents, Government officials, and other dignitaries. Named personages include: U. S. Grant, G. Washington, T. Jefferson, H. Clay, D. Webster, W. Richardson, G. Robeson, H. Fish, C. DeLand, Belknap, J. Creswell, F. Lawyer, J. Barnes, L. Woodbury, D. Farragut, H. Seward, J. Cisco, G. Boutwell, W. Fessenden, R. Walker, Fort Morse, O. Wolcott, A. Kendall, A. Borie, E. Washburne, T. Stevens, E. Baker, W. Meredith, S. Wright, J. Rawlins, J. Guthrie, R. King, DeCATUR, T. Benton, Gen. Thomas, W. Earle, Lincoln (with vignettes at each side), etc. The remaining forty-three plates are vignettes of various sizes. Named engravings include: The Capitol, Patent Office, Treasury, America, Guardian, Caduceus, Victory, Sewing, Reconstruction, Turget, Liberty & Union, Mortar-Firing, Loyalty, Justice & Shield, Launching Through the Surf, Farmer and Mechanic, Seeding and Ginning, The Smokers Never issued commercially. Bureau of Engraving and Printing vignette books were usually prepared for presentation to government officials and dignitaries. Issued at different times over a number of years, they come in a bewildering variety of combinations and rarely are two copies exactly alike. Through the years many volumes have been broken up and the vignettes sold individually, often as proofs. This practice and the fact that the volumes were issued in limited numbers on an individual basis account for their extreme scarcity today. These sumptuous volumes are truly numismatic aristocrats, coveted by bibliophile and syngraphist alike. This particular volume was presented to Matthew Hale Carpenter (1824-1881), a Senator from Wisconsin. It may have been a consolation prize, or a parting perquisite, as he lost his bid for reelection in 1875.

369 Warner, Thomas. **COMMUNION TOKENS. A DESCRIPTIVE CATALOGUE OF MEDALS AND TOKENS STRUCK FOR THE USE OF COMMUNICANTS IN DIFFERENT BRANCHES OF THE AMERICAN PRESBYTERIAN CHURCH.** (Boston): Privately Printed, 1880. viii, (5)-39, (1) pages, 2 blank leaves, 2 rather attractive if coarse halftone plates derived from drawings of medals and tokens.  Clain-Stefanelli 13730. Inscribed at the head of the front cover: "Compliments of Thomas Warner," with his distinctive decorative flourish below; further inscribed on the front cover below the printed title: "donated by Mr Tho Warner, The Numismatic & Antiquarian Society, 20 Nov/88." One of 150 copies reprinted from the *American Journal of Numismatics*. Extremely rare, despite the stated limitation, and the nice of the only two copies we recall ever having handled. Unrecorded in Davis (two other copies have come to market since publication, one already noted).

370 Weyl, Adolph. VERZEICHNISS EINER BEDEUTENDEN SAMMLUNG VON MÜNZEN UND MEDAILLEN VON AMERIKA, AUSTRALIEN, ASIEN UND AFRIKA, SOWIE EINER STÄTTLICHEN REIHE PROKLAMATIONS-MÜNZEN VON SPANIEN. Disbound. Fine. (500.00)

Not in the American Numismatic Society *Auction Catalogue* and the first copy we have ever seen of this legendary catalogue. Apparently, it also had not been seen by Newman or Bressett when their classic work *The Fantastic 1804 Dollar* was published in 1962. The conjecture that the illustration in the Weyl catalogue was that of an electrolyte of the 1804 dollar (note page 92) is clearly mistaken. The 1804 dollar depicted in the catalogue at hand is clearly Type 1 without any signs of wear, consistent with the Newman-Bressett "Dexter" description, although the portion of the edge depicted [DOLLAR ** O] appears to be relatively distinct except for the second I, and the R. Colotype or *Lichtdruck* illustrations, while of excellent quality, are photographically-printed from plaster casts and, though the quality of detail is excellent, toning or proof surfaces are not apparent. This might account for the differences perceived by Ed Frossard when comparing it with the same coin sold in 1885 by the Chapmans, these "differences" apparently being the basis for the Newman-Bressett 1804 electrolyte theory. The assertion the Chapmans might have "laundered" this coin may need reassessment as well. That such a rare American coin would appear in a German auction is not as unlikely as it might initially appear to be. During this time period, the Weyl firm made a specialty of offering important collections of "überseeischer münzen" often featuring extensive selections of North, Central and South American coins, tokens and medals. The famous 1879 Fonrobert sale, for example, featured over 6,000 lots of North American coins, tokens and medals and several thousand Central and South American lots. In addition, while the 1804 dollar stands out, the American coins in the sale clearly formed a meaningful collection. It is also true that the Chapmans regularly traveled to Europe to attend major coin auctions and Samuel Hudson is known to have participated in archeological excavations there. John Adams speculates that S. H.'s "summer-long" research trips to the continent may have been a factor in the breakup of the brothers' partnership. Thus, it would appear to be quite possible that the collection was viewed by the Chapmans sometime during the Summer of 1884 (nearly a year elapsed between the June 9-14, 1884 sale of the Warner collection and their next sale, the May 14-15, 1885 sale featuring the "Weyl" dollar, in which sale a number of other choice Weyl acquisitions were also offered). If the coin was indeed "planted," the Chapmans may still be prime suspects but it is also possible that another American dealer or source near the Mint placed it. Weyl termed the 1804 dollar "the sale 'tadellos, noch nicht im Verkehr gewesen'" (flawless, uncirculated), going on to comment on the similarity of the coin to the Cohen specimen and the quality of the edge lettering "Genau mit der Abbildung der im Jahre 1875 zu New-York versteigerten No. 535 der Collection Cohen übereinstimmend; Rendschrift jedoch auf vorliegendem Exemplar nur schwach ausgeprägt." No reference is made to the choice Sanford 1804 dollar sold the year before Cohen's, perhaps a ploy to accentuate the superiority of the Weyl coin over the Cohen dollar. A remarkable find, the Weyl catalogue offered here was originally part of the library of period European sales from the library of the Antiquarian and Numismatic Society of Montreal and, quite likely, it was once in the collection of Robert Wallace MacLachlan which was transferred to the Chateau de Ramezay in 1922. The catalogue is a fabled rarity (we personally have been looking for a copy for years and had half-serious doubts about its very existence). It answers some questions, begs more, but is an essential, valuable, and most elusive piece of that vast mosaic of literature forming the basis for American numismatic research. [Our thanks to P. Scott Rubin for his cogent observations and help in researching some of the information incorporated into the description of this lot].

HOLLAND, OF BOSTON, TOGETHER WITH THE CHADBOURNE COLLECTION OF STORE CARDS, AND A GREAT VARIETY OF AMERICAN AND FOREIGN COINS, MEDALS, NUMISMATIC WORKS, AUTOGRAPHS, PAPER CURRENCY, & C., & C. New York, November 11–16, 1878. 242 pages, 4208 lots, partially priced by Zabriskie with his purchases noted in ink autograph. Contemporary black half roan, gilt, marbled paper sides, original printed wrappers bound in throughout, extremities a bit worn. Fine, contents very clean. (300.00)

Three important and extensive early Woodward sales, in unusually nice condition. The last catalogue has been annotated by Andrew C. Zabriskie and it is likely that this volume was bound by him. Born in 1799, Mickley's search for a cent of that year led him into the formation of the finest collection of his time. The superb McCoy collection is the first Woodward sale recorded an A+ by Adams. The Holland sale featured the definitive Chadbourne collection of Store Cards, along with excellent American colonial coins, Canadian rarities, and, as Adams notes, the "most extensive U. S. medals ever offered."

375 Wyatt, Thomas. A DESCRIPTION OF THE NATIONAL MEDALS OF AMERICA, PRESENTED TO THE OFFICERS OF THE WARS OF THE REVOLUTION AND 1812. New York: Published for the Author by Charles Vinten, 1854. 28 pages, superbly engraved medallion-ruling machine frontispiece plate depicting both sides of the Preble medal, 41 descriptions of medals, annotated in pencil. Contemporary red half morocco, spine decorated and lettered in gilt, mottled paper sides, marbled paper endsheets, original printed yellow front wrapper bound in, a number of blank leaves bound in at the end, extremities a little worn. The front wrapper, the title, and the text have been neatly mounted on blank sheets, within hand-drawn red ink borders, in "windows" to allow viewing of both sides of each leaf. Fine. (500.00)

Ex Charles Ira Bushnell, in his distinctive binding, featuring his bold pencil autograph on the recto of the second free flyleaf, and his annotations in the text. Not in Sigler or the American Numismatic Society Dictionary Catalogue and the first copy we have ever seen or heard of. The author's 1848 *Memoirs of the Generals, Commodores, and Other Commanders...Presented with Medals by Congress* is generally considered to be the first work on American medals. The item at hand appears to be a new, condensed version of this work and the mounting of each leaf suggests that it might be a proof copy and may in fact have never been published. The preface still refers to "these memoirs" but the text consists solely of careful descriptions of each medal with a note on the "occasion" commemorated. Bushnell's proclivity for American medals is well known and his pencil annotations appear to comprise an inventory of his own collection, along with names of engravers and other interesting observations. He notes that he lacks only four medals and holds some in more than one metal. A unique copy, indeed perhaps the only surviving copy, of an enigmatic early American numismatic work.

A Very Fine Copy of Zabriskie on Lincoln Medals With His Own Copy of the Controversial Supplement

376 Zabriskie, Andrew C(hristian). A DESCRIPTIVE CATALOGUE OF THE POLITICAL AND MEMORIAL MEDALS STRUCK IN HONOR OF ABRAHAM LINCOLN, SIXTEENTH PRESIDENT OF THE UNITED STATES. New York: Printed for the Author, 1873. 2 blank leaves, 32 pages, 2 blank leaves, 187 listings of medals. Quarto: 26 x 17 cm. Original lavender printed wrappers just trifle worn and faded, unopened. Very fine. (also) H(olland), H(enry) W. LINCOLN MEDALS. Boston: Press of T. R. Marvin & Son, [From the *American Journal of Numismatics*, January, 1875], 1875. 5, (1) pages, blank leaf, woodcut decorations. Quarto: 28 x 18 cm. Self-covered and sewn as issued, once lightly folded horizontally, title a trifle dusty, a few pencil annotations in the text. (450.00)

One of ONLY SEVENTY-FIVE COPIES PRINTED of the first substantial work on the topic. The supplement is inscribed in ink at the head of the title: "Mr Andrew C. Zabriskie with the respects of the author." In the preface to this extremely rare work, Zabriskie proclaims that "I believe very few pieces have escaped my observation, and they are probably those known as mules." In the even rarer supplement published two years later by Henry Holland, a major collector of the series, no less than 110 new varieties were listed. Holland and Zabriskie both condemned "the mischievous practice of muling" but Holland disagreed with Zabriskie's cataloguing of "varieties in metal as separate medals." After deducting them from both totals, he states that the "real number of medals described by Zabriskie is one hundred and nine, and the number described by me is thirty-eight." The supplement originally appeared in the *American Journal of Numismatics*. This separate printing is more pleasingly arranged and the text differs slightly. Holland enumerates 110 "Lincoln Medals not in Zabriskie, from my collection and from the collection of Mr. S. S. Crosby." Zabriskie took umbrage at the article, proclaiming in the April, 1875 issue of the *AJN* that he had List, remarkable alike for its fullness and accuracy." In the copy at hand, the word "out" is written before four listings, presumably by Zabriskie. Holland's response to his critique in the same issue expresses "regret that his List of Lincoln Medals sent you should have so much annoyed Mr. Zabriskie." Undaunted however, he goes on to list 103 additional new varieties, noting that the List of Lincoln Medals sent you should have so much annoyed Mr. Zabriskie." Undaunted supplement and that the new listings "can hardly fail to be of service to him." In his own copy of Woodward's 1878 sale of the Holland collection offered elsewhere in this sale (vide lot 374), Zabriskie notes the purchase of no less than fourteen of Holland's Lincoln medals, presumably being ones not in his own collection. Whether the second supplement was ever published separately and whether, if so, Holland had the temerity to present a copy to Zabriskie, we do not know but somehow doubt. Ultimately, Zabriskie published his *Medallic History of Abraham Lincoln* in the 1900-1901 *Proceedings of the American Numismatic Society*.
